

**Presentation of the consolidated companies
Abu-plast Kunststoffbetriebe GmbH and
Sanitärtechnik Eisenberg GmbH (SANIT)**

Dear Sir or Madam,

Allow us to introduce to you the consolidated companies Abu-plast / SANIT.

Abu-plast and SANIT are two plastics processing companies that manufacture products for the sanitary industry. SANIT has been holding 95% of the shares of Abu-plast since January 1st, 2003. The ALIAXIS Group is the 100% owner of SANIT. The ALIAXIS Group is a world-wide acting, family-owned holding company with a long industrial tradition. With an annual turnover of 2,300 billion €, a staff of 14,000 people and 100 companies in 40 countries it is one of the leading groups in its branch. You will find more information about the ALIAXIS Group under www.aliaxis.com.

Abu-plast and SANIT are two independently acting companies that develop and manufacture products in close cooperation and sell them independently or together. Both companies are located in the middle of Germany (Abu-plast near Coburg and SANIT near Jena).

We manufacture sanitary plastic products with 350 employees on more than 120 injection moulding machines and fully automatic compression moulding plants. The consolidated companies have highly specialised development departments, own mould shops and assembly capacities, so that we can offer a complete service from the product development to the final product.

The companies realise a turnover of more than 80 million € with an export share of about 40% in more than 50 countries.

The production of the companies is characterised by the following main products:

- plastic flushing cisterns
- cistern mechanisms for ceramic cisterns
- plastic flush distributors
- connection parts for WCs, air-admittance valves
- WC seats, injection moulded in 1 or 2 components and compression moulded
- concealed systems
- wastes and traps for all purposes of drainage of wash basins, kitchen sinks, bath tubs and shower trays

You will find more information about the companies under www.abu.de and www.sanit.de.
