NOTES ON THE SANIT PRICE LIST 2023

We hereby present the SANIT price list 2023. Our catalogue and latest products are available at www.sanit.com.

The SANIT price list 2023 replaces and invalidates all previous price lists. Our business relationships are based on our latest Standard Delivery Terms.

Prices are non-binding recommended prices in €, not including statutory value added tax. All prices are subject to change due to price fluctuations on the commodity markets.

We reserve the right to make technical changes and size adjustments to our products. Discontinued models/products are available as long as they are on stock.

PRE-WALL INSTALLATION PWI

WASTE KITS

AIR ADMITTANCE VALVES AND ACCESSORIES

WC ACCESSORIES

SINK RANGE

BATHROOM ACCESSORIES

SWIMMING POOL GRATINGS

SPARE PARTS PIPESYSTEMS AND PRE-WALL INSTALLATION PWI

PRE-WALL INSTALLATION PWI

Pre-assembled installation grid system	2.9.		19-21
Pre-wall elements for drywall installation	2.2.		22-49
Concealed in- or pre-wall modules	2.1.		50-55
WC flush actuators	2.3.		56-91
Urinal flush actuators	2.4.		92-98
Drywall construction rail system 996	2.5.		99-106
Modules for drywall systems	2.6.		107-112
PWI accessories	2.7.		113-136
PWI spare parts	2.8.		137-186

FAST AND CLEVER
TO THE RESULT:
**INEO PROFIL
INSTALLATION
SYSTEMS**

25

YEARS OF SYSTEM EXPERTISE

APPLICATION AREAS: **FOR HIGHEST STANDARDS**

INEO PROFIL installation systems can be found wherever high efficiency and quality in construction is required. For new builds and renovations – in projects with many units and similar floor plans.

- residential buildings and hotels
- senior residences and clinics
- office buildings
- schools and daycare centres

YOUR DECISION: **WINNING WITH INEO PROFIL**

Plan safely, save time and money, benefit from high flexibility and quality - INEO PROFIL installation systems are the right option for you. We would be happy to advise you on your building project.

STRONG ARGUMENTS

- custom-made installation systems
- use of standard, high-quality products
- cost-optimized through short assembly times
- high reliability in planning, on-site measurements and delivery to the construction site
- optimal planning and calculation security

Marking of series-production status CC INEO

Code and series-production status are marked in the concealed cistern as follows.

WC element INEO PLUS 450 S

equipped with wall brackets, INEO FRESH box for water box cube, adjustable flush reducer and revision box for connection facility for shower toilets and electronic release

for wall-hung WC with mounting distance 180/230 mm, front operated, self-supporting, powder-coated steel frame, for covering with plasterboard, installation onto solid wall, in drywall constructions etc., 4-point fastening, fully pre-assembled, self-locking feet with swivel base plates suitable for drywall profiles UW 50 and UW 75 and Sanit Installation System 996 fastening set, adjustment range of feet: 0-200 mm, adjustment range front to wall: 135-205 mm (when mounted on wall brackets code no. 17.257.00..T000), with back-to-back installation distance between front edges 270-310 mm with SANIT double bend, SANIT concealed cistern with insulation against condensation (CC-121-S-FO-2V-2C), with dual flush (7.5-4.5l/4-2l), factory setting 6 and 3 litres, SANIT fill valve Noise Class I, 2-part angle valve connection set R ½, protection box for access opening and ceramic fittings can be cut to size, 4-position adjustable mounting clip, WC connecting bend d:90 mm with PE transition sleeve d:90/110, WC connection set d:90 mm, 2 M12 WC retaining bolts, incl. templates for transferring the access openings to the cladding panel, mounting material, protection plug and installation instructions, packed in a box

Concealed cistern tested to DIN EN 14055, Noise Class I

Note: A230V connection is required for shower-toilet connection and electronic release.

2. with wall brackets and revision box for WC connection
3. without wall brackets, with revision box for WC connection

The cleaning cubes being used must be suitable for WC plastic cisterns and must not contain chlorine or any oxidizing components, otherwise the cistern may be damaged (e.g. stress cracking).

Size h / w	Code No.	P1	P2	P3	Recmd. price/€

Urinal element INEO

for urinal cartridge valve technology

h/w/d: 1,120/525/98 mm, self-supporting, powder-coated steel frame, for covering with plasterboard, installation onto a solid wall, in drywall constructions etc., 4-point fastening, fully pre-assembled, includes self-locking feet with swivel base plates and fastening set, suits all ceramic urinals, adjustment range of feet from unfinished floor level to upper edge of finished floor level: 0-200 mm, adjustment range front to wall: 135-205 mm (when mounted on wall brackets code no. 17.257.00..T000), with 2 M8 bolts for fastening urinal including protection plugs and chromium-plated protection caps, with waste bend DN 50(d:50) and sound-absorbing waste bend clamp, with threaded bar M8 x 300 mm, connection set d:25, with flexible metal hose, which can be screwed by hand, with SANIT universal cartridge roughing-in set with modifiable water connections for hand operated pneumatic cartridge valve or for 6V DC solenoid cartridge valve with infrared electronics, relative conductivity with urinal exhaust trap 500, all traverses pre-assembled, without urinal cover plate, packed in a box

Size h / w	Code No.	P1	P2	P3	Recmd. price/€
1,120 / 525 mm	90.668.00..T000	1	18		

Accessories:

- wall brackets (pair) code no. 17.257.00..T000 see page 121
- urinal flush actuators from page 92 on
- sound-absorbing sets from page 134 on
- extension sets from page 120 on
- connection set with **spray nozzle** code no. 05.013.00..0000 see page 133

Urinal element INEO

for exposed flush valves or for ceramic urinals with integrated controls
h/w/d: 1,120/525/80 mm, self-supporting, powder-coated steel frame, for covering with plasterboard, installation onto a solid wall, in drywall constructions etc., 4-point fastening, fully pre-assembled, includes self-locking feet with swivel base plates and fastening set, suits all ceramic urinals, adjustment range of feet from unfinished floor level to upper edge of finished floor level: 0-200 mm, adjustment range front to wall: 135-205 mm (when mounted on wall brackets code no. 17.257.00..T000), with 1 sound-insulated wall bushing, G ½ internal thread/G ½ male thread, with 2 M8 bolts for fastening urinal including protection plugs and chromium-plated protection caps, with waste bend DN 50 (d:50) and sound-absorbing clamp, with threaded bar M8 x 300 mm, all traverses pre-assembled, without exposed flush valve, packed in a box

Size h / w	Code No.	P1	P2	P3	Recmd. price/€
1,120 / 525 mm	90.675.00..T000	1	18		

Accessories:

- wall brackets (pair) code no. 17.257.00..T000 see page 121
- sound-absorbing sets from page 134 on
- extension sets from page 120 on

Bidet element INEO

1.h/w/d: 1,120/525/100 mm, 2.h/w/d: 1,120/525/100 mm, 3.h/w/d: 1,120/525/100 mm, self-supporting, powder-coated steel frame, for covering with plasterboard, installation onto a solid wall, in drywall constructions etc., 4-point fastening, fully pre-assembled, includes self-locking feet with swivel base plates and fastening set, suits all ceramic bidets, adjustment range of feet from unfinished floor level to upper edge of finished floor level: 0-200 mm, adjustment range front to wall: 135-205 mm (when mounted on wall brackets code no. 17.257.00..T000), **without** wall brackets, with multiply laminated plywood panel and scaling for the free positioning of drinking water pipe wall plates for various pipe systems by the customer, with 2 adjustable M12 bolts adjustable to 180/230 mm including nuts and white covers, with universal waste bend DN 50 (d:50)/DN 40 (d:40), including rubber collar DN 40 (d:40)/DN 32 (d:32) and protection plugs, with sound-absorbing waste bend clamp, packed in a box

Size h / w	Code No.	P1	P2	P3	Recmd. price/€
1. 1,120 / 525 mm	90.676.00..T000	1	15		
2. 985 / 525 mm	90.662.00..T000	1	12		
3. 820 / 525 mm	90.663.00..T000	1	21		

Accessories:

- wall brackets (pair) code no. 17.257.00..T000 see page 121
- sound-absorbing sets from page 134 on
- extension sets from page 120 on

Sink element INEO for wall-mounted mixers

h/w/d: 1,120/525/85 mm, element can be adjusted to a height of 1220 mm by extending the feet, self-supporting, powder-coated steel frame, for covering with plasterboard, installation onto a solid wall, in drywall constructions etc., 4-point fastening, fully pre-assembled, includes self-locking feet with swivel base plates and fastening set, suits all laundry sinks, adjustment range of feet from unfinished floor level to upper edge of finished floor level: 0-200 mm, adjustment range front to wall: 135-205 mm (when mounted on wall brackets code no. 17.257.00..T000), with waste bend DN 50 (d:50) and sound-absorbing clamp, with threaded bar M8 x 300 mm, with 2 waterproof multiply laminated plywood panels, all traverses pre-assembled, packed in a box

Size h / w	Code No.	P1	P2	P3	Recmd. price/€
1,120 / 525 mm	90.677.00..T000	1	18		

Accessories:

- wall brackets (pair) code no. 17.257.00..T000 see page 121
- sound-absorbing sets from page 134 on
- extension sets from page 120 on

Excrement sink element INEO

for Puplica wall-hung sink (KERAMAG „Espital“)

h/w/d: 1,530/525/155 mm, with small access opening, front-operated, self-supporting, powder-coated steel frame, with a static loading capacity of up to 400 kg, for covering with plasterboard, installation onto a solid wall, in drywall constructions etc., 4-point fastening, fully pre-assembled, includes self-locking feet with swivel base plates and fastening set, adjustment range of feet from unfinished floor level to upper edge of finished floor level: 0-200 mm, adjustment range front to wall: 135-205 mm, SANIT concealed cistern with insulation against condensation (CC-122-S-FO-2V-2C), with dual flush (6-4.5 l or 4-2 l) and flexible cable technology, factory setting 6 and 3 litres, with protection cap for the flush pipe, SANIT fill valve Noise Class I, angle valve R ½, 4-position adjustable waste bend clamp and clamp locking, WC connecting bend 90° DN 90 with reducing sleeve DN 90/DN 100 (d:110), with protection cap, SANIT complete WC connection set DN 90 (d:90)/180 mm, protection box for access opening can be cut to size, flexible hose to fill valve, can be screwed by hand, 2 M12 retaining bolts adjustable to 180/230 mm with protection plugs and nuts, with traverse for exposed mixers with 2 sound absorbing wall bushings G ½ internal thread x G ½ male thread, with wall brackets, without push plate, packed in a box

Size h / w	Code No.	P1	P2	P3	Recmd. price/€
1,530 / 525 mm	90.659.00..0000	1	10		

Accessories:

- WC push plate for nursery school see page 68
- sound-absorbing sets from page 134 on
- extension sets from page 120 on

Empty frame INEO

h/w/d: 1,120/525/48 mm, powder-coated steel frame, for covering with plasterboard, installation onto solid wall, in drywall constructions etc., 4-point fastening, fully pre-assembled, incl. self-locking feet with swivel base plates and fastening set, base element for universal concealed modules etc., for bridging gaps of 550 to 1650 mm between elements, adjustment range of feet from unfinished floor level to upper edge of finished floor level: 0-200 mm, adjustment range front to wall: 135-205 mm (when mounted on wall brackets code no. 17.257.00..T000), packed in a box

Size h / w	Code No.	P1	P2	P3	Recmd. price/€
1,120 / 525 mm	90.688.00..T000	1	18		

Accessories:

- wall brackets (pair) code no. 17.257.00..T000 see page 121
- sound-absorbing set code no. 16.032.00..0000 see page 134
- extension sets from page 120 on
- modules for drywall systems from page 107 on

Element INEO for fixing handles and supports

h/w/d: 1,120/294/48 mm, for right and left constructions, self-supporting, powder-coated steel frame, for covering with plasterboard, installation onto a solid wall, 2-point fastening, self-locking foot with swivel base plate and fastening set, can not be cut, also suitable for bridging gaps of 500 to 1100 mm between elements, adjustment range of foot from unfinished floor level to upper edge of finished floor level: 0-200 mm, adjustment range front to wall: 135-205 mm (when mounted on wall brackets code no. 17.257.00..T000), packed in a box

Version	Code No.	P1	P2	P3	Recmd. price/€
right	90.680.00..TR00	1	12		
left	90.680.00..TL00	1	12		

Accessories:

- wall brackets (pair) code no. 17.257.00..T000 see page 121
- sound-absorbing sets from page 134 on
- extension sets from page 120 on

Bath and shower tray element INEO

for exposed wall mixers

h/w/d: 1,120/525/75 mm, self-supporting, powder-coated steel frame, for covering with plasterboard, installation onto a solid wall, in drywall constructions etc., 4-point fastening, fully pre-assembled, includes self-locking feet with swivel base plates and fastening set, universally adjustable, consisting of waterproof multiply laminated plywood panel with galvanised side plates, for attachment of wall plates on site, adjustment range of feet from unfinished floor level to upper edge of finished floor level: 0-200 mm, adjustment range front to wall: 135-205 mm (when mounted on wall brackets code no. 17.257.00..T000), pre-assembled traverse, packed in a box

Further bathtub elements are possible from combinations of empty elements of different heights with corresponding modules for surface-mounted and concealed fittings.

Size h / w	Code No.	P1	P2	P3	Recmd. price/€
1,120 / 525 mm	90.681.00..T000	1	18		

Accessories:

- wall brackets (pair) code no. 17.257.00..T000 see page 121
- sound-absorbing sets from page 134 on
- extension sets from page 120 on

Bath and shower tray element INEO

for concealed mixers

h/w/d: 1,120/525/98 mm, self-supporting, powder-coated steel frame, for covering with plasterboard, installation on a solid wall, in drywall constructions etc., 4-point fastening, fully pre-assembled, includes self-locking feet with swivel base plates and fastening set, height-adjustable concealed mixer traverse consisting of waterproof, multiply laminated plywood panel with galvanised side plates, for mounting of concealed mixers on-site, adjustment range of feet from unfinished floor level to upper edge of finished floor level: 0-200 mm, adjustment range front to wall: 135-205 mm (when mounted on wall brackets code no. 17.257.00..T000), with 1 sound-insulated wall bushing G ½ internal thread / G ½ male thread, packed in a box

Size h / w	Code No.	P1	P2	P3	Recmd. price/€
1,120 / 525 mm	90.682.00..T000	1	18		

Accessories:

- wall brackets (pair) code no. 17.257.00..T000 see page 121
- sound-absorbing sets from page 134 on
- extension sets from page 120 on

Concealed bath system frame INEO RIM

base frame next to a bath tub, to be tiled and to integrate 3-4 valves and fittings, self-supporting free-standing powder-coated frame with 4 adjustable feet for covering with plasterboard, to accommodate a hose box for the collection of dripping water of hand showers, hose box includes water connections for the dripping water and for the water supply coming from the bath drain unit, 2 angle valves $G \frac{1}{2} \times G \frac{1}{2}$, turnable and flexible outlet pipe DN 32, 1250 mm long, with additional junction DN 32 incl. non return flap for the dripping water connection, tilable valve and fitting support with concealed fixation, horizontally adjustable, for valves and fittings with a max. diameter of 54 mm, fixation material, packed in a box

Size l / w / h	Code No.	P1	P2	P3	Recmd. price/€
675 / 150 / 500 mm	90.686.00..0000	1	20		

Accessories:

- waste and overflow assembly SWING PLUS see page 205

Hose box with non-return valve

for the drainage of dripping water from hand showers at bath edge fittings, mounting on solid walls, for horizontal integration into overflow pipes of bath outlet fittings d:32, consisting of hose box with rotatable flexible outlet pipe, branch DN 32 (d:32), non-return flap, with fastenings and installation instructions, packed in a box

	Code No.	P1	P2	P3	Recmd. price/€
	17.291.00..0000	1	30		

Accessories:

- module for concealed bath system with 3 or 4 valves and fittings code no. 17.290.00..0000 see page 49

Module for concealed bath system with 3 and 4 valves and fittings

l/w/h: 680x150x20 mm, for installation onto a tiled base, for solid or drywall installation, to accommodate 3 and 4 hole wall mountings with a shaft diameter of max. 54 mm, tilable fitting support with concealed fixing, horizontally adjustable, with fastenings and installation instructions, packed in a box

Size l / w / h	Code No.	P1	P2	P3	Recmd. price/€
680 x 150 x 20 mm	17.290.00..0000	1	100		

Accessories:

- hose box with non-return valve code no. 17.291.00..0000
see page 48

Concealed WC module INEO IN

for wall-hung WC with mounting distance 180/230 mm, with small access opening, front operated, for installation in/onto solid walls, comprising a U-shaped galvanised support frame with 6 fastening lugs, M12 WC fastenings, with pre-assembled SANIT concealed cistern (CC-121-S-FO-2V-2C) with insulation against condensation, with dual flush (7.5-4.5 litres / 4-2 litres), factory setting 6 and 3 litres, button function transmitted to INEO flush valve via flexible cables, connection to push plate via turn-click connection, SANIT fill valve Noise Class I, 2-part angle valve connection set R 1/2, mounting clip for drain bend 4-position adjustable, WC connecting bend 90° DN 90(d:90) with reducing sleeve DN 90(d:90)/DN 100(d:110) with protection plug, WC connection set DN 90(d:90), protection box for access opening can be cut to size, flexible hose to fill valve can be screwed by hand, incl. all fastenings, with recess block, without brackets, without push plate, packed in a box

Concealed cistern tested to DIN EN 14055, Noise Class I

Size	Code No.	P1	P2	P3	Recmd. price/€
1090 mm	95.721.00..0000	1	24		

Accessories:

- WC flush actuators from page 60 on
- brackets for floor fixation code no. 16.001.00..0000 see page 119
- adjustable flush reducer code no. 05.261.00..0000 see page 130

Concealed WC module INEO FronTop 820

for wall-hung WC with mounting distance 180/230 mm, with small access opening, front/top-operated, size: 820 mm, for installation in/onto solid walls, comprising U-shaped galvanised support frame with 4 fastening lugs, M12 WC fastenings, with pre-assembled SANIT concealed cistern (CC-122-S-UO-2V-2C) with insulation against condensation, dual flush (6/3 l), button function transmitted to the flush valve via flexible cables, connection to push plate via turn-click connection, SANIT fill valve Noise Class I, angle valve connection set R 1/2, mounting clip for drain bend adjustable in 4 positions, WC connecting bend 90° DN 90 (d:90) with reducing sleeve DN 90(d:90)/DN 100(d:110) and protection cap, WC connection set DN 90(d:90), protection box for access opening can be cut to size, flexible hose connection to fill valve can be screwed by hand, incl. fastenings, without brackets, without push plate, packed in a box

Concealed cistern tested to DIN EN 14055, Noise Class I

Size	Code No.	P1	P2	P3	Recmd. price/€
820 mm	95.728.00..0000	1	20		

Accessories:

- WC flush actuators from page 60 on
- brackets for floor fixation code no. 16.001.00..0000 see page 119
- sound-absorbing sets from page 134 on
- WC connectors from page 318 on

Concealed WC module INEO IN 80

for wall-hung WC with mounting distance 180/230 mm, with small access opening, front operated, for installation in/onto solid walls, comprising a U-shaped galvanised support frame with 6 fastenings, M12 WC fastenings, with pre-assembled SANIT concealed cistern (CC-80-S-FO-2V-2C), insulation against condensation, depth: 8 cm, with dual flush (6-4 l/4-2 l), factory setting 6 and 3 litres, SANIT fill valve Noise Class I, 2-piece R ½ angle valve connection set, mounting clip for drain bend 4 positions adjustable, WC connection bend 90° DN 90(d:90) with protection plug, protection box for access opening can be cut to size, fastenings and plastering mesh, without push plate, packed in a box

Concealed cistern tested to DIN EN 14055, Noise Class I

	Code No.	P1	P2	P3	Recmd. price/€
	95.804.00..0000	1	20		

Accessories:

- WC flush actuators from page 60 on

Concealed bidet module 980

for installation in/onto solid walls

comprising a U-shaped galvanised support frame with 4 fastening lugs, depth of module adjustable 120–170 mm, M12 bidet fastening with caps, adjustable spacing of 180/230 mm, with multiply laminated plywood panel and scaling for mounting customers drinking water wall fittings for various pipe systems, mounting clip for PE drain bend DN 50(d:50) with rubber seal DN 50(d:50)/DN 40(d:40), including all fastenings, packed in a box

	Code No.	P1	P2	P3	Recmd. price/€
	95.950.00..0000	1	36		

Concealed in- or pre-wall modules 2.1.

Urinal mounting set

universal cartridge roughing-in set with a compact design for solid walls for manual pneumatic cartridge valves or solenoid cartridge valves 6V DC for infrared electronics, relative conductivity, plastic roughing-in box w/h/d: 96x122x72 mm, with pre-assembled, modifiable water path, with stopcock, protection box for access opening can be cut to size, with fastenings, flow pressure 1-10 bar, Noise Class I, universal R ½ water connection, filter and valve cap with 8 mm hexagon socket, with flush pipe 500 mm, external diameter 20 mm, to be cut on site (from middle roughing-in box to middle of back urinal inlet maximum 610 mm, minimum 210 mm), with flush pipe redirection and fixing plate, with supply pipe 180 mm external diameter 20 mm to be cut on site, with urinal water supply kit comprising flush pipe and flush pipe connector for pan diameter 32-38 mm, packed in a box

	Code No.	P1	P2	P3	Recmd. price/€
	03.955.00..0000	1	50		

Concealed cistern INEO

with small access opening, front operated

SANIT concealed cistern (CC-121-S-FO-2V-2C) with insulation against condensation, with dual flush (7.5-4.5 l / 4-2 l), factory setting 6 and 3 litres, button function transmitted to INEO flush valve via flexible cables, connection to push plate via turn-click connection, flush pipe bend with protection plug, SANIT fill valve Noise Class I, 2-piece R ½ angle valve connection set, protection box for access opening can be cut to size, with fixing brackets, without fastenings, packed in a box

Concealed cistern tested to DIN EN 14055, Noise Class I, KIWA

	Code No.	P1	P2	P3	Recmd. price/€
	95.720.00..0000	1	35		

Accessories:

- adjustable flush reducer code no. 05.261.00..0000 see page 130

Concealed cistern INEO FronTop 985

with small access opening, front/top operated

installation height: 985 mm, SANIT concealed cistern (CC-122-S-UO-2V-2C) insulated against condensation, with dual flush (6-4.5l/4-2l), factory setting 6 and 3 litres, button function transmitted to INEO flush valve via flexible cables, connection to push plate via turn-click connection, flush pipe bend with protection cap, SANIT fill valve Noise Class I, angle valve R ½, protection box for access opening can be cut to size, with fixing brackets, without fastenings, packed in a box

Concealed cistern tested to DIN EN 14055, Noise Class I

	Code No.	P1	P2	P3	Recmd. price/€
	95.726.00..0000	1	20		

Accessories:

- adjustable flush reducer code no. 05.261.00..0000 see page 130

Concealed cistern INEO FronTop 820

with small access opening, front/top operated

installation height: 820 mm, SANIT concealed cistern (CC-122-S-UO-2V-2C) insulated against condensation, with dual flush (6l/3l), button function transmitted to INEO flush valve via flexible cables, connection to push plate via turn-click connection, flush pipe bend with protection cap, SANIT fill valve Noise Class I, angle valve R ½, protection box for access opening can be cut to size, with fixing brackets, without fastenings, packed in a box

Concealed cistern tested to DIN EN 14055, Noise Class I

	Code No.	P1	P2	P3	Recmd. price/€
	95.725.00..0000	1	20		

Concealed cistern INEO 80

with small access opening, front operated, SANIT concealed cistern (CC-80-S-FO-2V-2C) insulated against condensation, with dual flush (6-4 l / 4-2 l), factory setting 6 and 3 litres, button function transmitted to INEO flush valve via flexible cables, connection to push-plate via turn-click connection, adjustable flush pipe bend with insulation and protection cap, 4 fastening points, SANIT fill valve Noise Class I, 2-piece R ½ angle valve connection set, white flush pipe, flush pipe connector, protection cap and covering rosette, protection box for access opening can be cut to size, with fixing brackets, fastenings and plastering mesh, without push plate, packed in a box

Concealed cistern tested to DIN EN 14055, Noise Class I, KIWA

	Code No.	P1	P2	P3	Recmd. price/€
	95.803.00..0000	1	30		

Concealed cistern INEO for squat toilet

with small access opening, front operated, SANIT concealed cistern (CC-121-S-FO-2V-2C) with insulation against condensation, with dual flush (7-4.5 l / 4-2 l), factory setting 6 and 3 litres, button function transmitted to INEO flush valve via flexible cables, connection to push plate via turn-click connection, 2-piece flush pipe, SANIT fill valve Noise Class I, 2-piece R ½ angle valve, protection box for access opening can be cut to size, with fixing brackets, without fastenings, packed in a box

Concealed cistern tested to DIN EN 14055, Noise Class I

	Code No.	P1	P2	P3	Recmd. price/€
	95.722.00..0000	1	24

Push plate INEO SCOP with functional and corona lighting contact free dual flush

for concealed cisterns with small access opening CC-80-S-FO-2V-2C, CC-121-S-FO-2V-2C und CC-122-S-UO-2V-2C, front operated, hygienic, touch-free infrared sensor controlled WC dual flush system, for WC elements INEO, user recognition via IR long range sensors, dual flush controlled by short range infrared sensors, inviting function by corona lighting and user-leading light functions, consisting of glass flush plate with infrared sensors LED lighting, control electronics, low-noise low-voltage motor as lifting device, support frame and fixing bolts, voltage input: with cable and plug for unequivocal installation, potential-free signal input for additional remote release with compact power adapter 100-230 V AC / 6 V DC, with installation and operating instructions, packed in a box

Parameters:

- l/w/h: 220/160/15 mm
- long sensor range approx. 1500 mm
- short sensor range approx. 60 mm
- power supply 230V mains
- defined flush volumes adjustable via flush valve INEO
- flush interval freely selectable, factory set to 24 h
- 7 light colours can be selected

Easy parameter setting via remote maintenance and service control DO-5.1 S*) and directly on the push plate by infrared functionality.

*) to be ordered separately

Material: glass

Colour	Code No.	P1	P2	P3	Recmd. price/€
black	16.746.C8..0000	1	3	48	

Accessories:

- service and maintenance remote control code no. 03.806.00..0000 see page 131
- concealed installation module code no. 03.933.00..0000 see page 124

Infrared WC control system INEO BRIGHT, battery

for concealed cisterns with small access opening, front operated, dual flush, hygienic, touch-free infrared sensor controlled WC dual flush system, for WC elements INEO, user identification via light bar in the sensor field, automatic flush release by user detection or contact-free by hand, additional option for manual flush release via push plate, consisting of actuator + IR module, incl. chromed decorative frame, cover and fixing bolts, low-noise low-voltage motor as lifting device and control electronics, voltage input: with cable and plug for unequivocal installation, voltage output: cable and encoded plug for unequivocal installation to power supply, with bracket for low-voltage motor, packed in a box

Parameters:

- l/w/h: 202/145/10 mm
- long sensor range approx. 800 mm
- short sensor range approx. 60 mm
- power supply via 4 alkaline batteries 1.5V R14*)
- defined flush volumes adjustable via flush valve INEO
- flush release: automatic, touch free, manual
- flush interval freely selectable, factory set to 24 h
- light colour for user detection selectable: red/green/blue

Easy parameter setting via remote maintenance and service control DO-5.1 S*), basic parameters directly at the push plate via IR-function.

*) to be ordered separately

Material: plastic, thermosetting plastic or brushed stainless steel

Colour	Code No.	P1	P2	P3	Recmd. price/€
alpine white	16.759.01..0000	1	10	140	
thermosetting plastic white	16.762.01..0000	1	10	140	
brushed stainless steel	16.759.00..0000	1	10	140	
chrome	16.759.81..0000	1	10	140	

Accessories:

- service and maintenance remote control code no. 03.806.00..0000 see page 131

Note:

For the concealed cisterns CC-120-S, CC-150-S and CC-200-S a motor bracket Code No. 05.339.00..0000 and a universal flush valve INEO code no. 03.982.00..0000 is required prior to series stand 20.

Infrared WC control system INEO BRIGHT, mains supply

for concealed cisterns with small access opening, front operated, dual flush, hygienic, touch-free infrared sensor controlled WC dual flush system, for WC elements INEO, user identification via light bar in the sensor field, automatic flush release by user detection or contact-free by hand, automatic flush release by user detection or contact-free by hand, consisting of actuator + IR module, incl. chromed decorative frame, cover and fixing bolts, low-noise low-voltage motor as lifting device and control electronics, voltage input with cable and plug for unequivocal installation, voltage output: cable and encoded plug for unequivocal installation to power supply, incl. power supply 230 AC/6V DC, packed in a box

Parameters:

- l/w/h: 202/145/10 mm
- long sensor range approx. 1500 mm
- short sensor range approx. 60 mm
- power supply 100 – 240V AC mains
- defined flush volumes adjustable via flush valve INEO
- flush release: automatic, touch free, manual
- flush interval freely selectable, factory set to 24 h
- light colour for user detection selectable: red/green/blue

Easy parameter setting via remote maintenance and service control DO-5.1 S *), basic parameters directly at the push plate via IR-function

*) to be ordered separately

Material: plastic, thermosetting plastic or brushed stainless steel

Colour	Code No.	P1	P2	P3	Recmd. price/€
alpine white	16.757.01..0000	1	10	140	
thermosetting plastic white	16.758.01..0000	1	10	140	
brushed stainless steel	16.757.00..0000	1	10	140	
chrome	16.757.81..0000	1	10	140	
matt black	16.757.56..0000	1	10	140	

Accessories:

- service and maintenance remote control code no. 03.806.00..0000 see page 131
- concealed installation module code no. 03.933.00..0000 see page 124

Note:

For the concealed cisterns CC-120-S, CC-150-S and CC-200-S a motor bracket Code No. 05.339.00..0000 and a universal flush valve INEO code no. 03.982.00..0000 is required prior to series stand 20.

Infrared WC control system S 705, INEO long range

for concealed cisterns with small access opening (from year of construction 2014) CC-80-S-FO-2V-2C, CC-121-S-FO-2V-2C, CC-122-S-UO-2V-2C, CC-150-S-FO-2V-2C, CC-120-S-FO-2V-2C and CC-200-S-FO-2V-2C, front operated, mounting height middle button / middle water inlet ceramic 625-645 mm, **not suitable for WC corners with overhang > 60 cm**, hygienic, touch-free infrared sensor controlled WC flush system, for pre-wall WC elements INEO, 980 N/C or 995 N/C, long-range user detection, non-contact activation of 1-volume flush by manual user registration, additional possibility for manual flush activation via push plate (vandal safe in brushed stainless steel with security screw), consisting of push button, actuator frame, actuator support bracket, fixing bolts and security screw, with pre-assembled IR module with low-voltage plug for error-safe installation, with low noise low-voltage motor for lifting device and control electronics, power input: with cable and plug for error-safe installation, output: cable and coded plug for error-safe connection to the power supply and potential-free switch inputs for additional electronic modules, with bracket for low-voltage motor, **without power supply**, packed in a box

Parameters:

- sensor range approx. 550 mm, height/width 145x205 mm
- height above tiles 22 mm
- mounting height centre of button / centre of pan water inlet 625-645 mm
- power supply 230V AC mains
- minimum delay time for automatic flush actuation 15 sec.
- actuation after leaving the sensor range 2-3 sec.
- manual flush actuation also possible
- flush volume 4.5-9 l depending on the concealed cistern model
- automatic interval flush factory set to 24h

Settings can be adjusted via service and maintenance remote control DO-2S:

- 0-108 h interval flush after last use of the infrared control system in 12 h increments
- it is possible to adjust the sensor range

Material/colour: brushed stainless steel, chrome plastic

Colour	Code No.	P1	P2	P3	Recmd. price/€
brushed stainless steel	16.741.00..0000	1	10	140	
chrome	16.741.81..0000	1	10	140	

DISCONTINUED MODEL – delivery while stocks last

Accessories:

- concealed power supply code no. 01.254.00..0000 see page 127
- cover plate code no. 16.076.00..0000 see page 132
- compact power supply code no. 03.158.00..0000 see page 126

Infrared WC control system S 705, INEO short range

for concealed cisterns with small access opening (from year of construction 2014) CC-122-S-UO-2V-2C, CC-80-S-FO-2V-2C, CC-121-S-FO-2V-2C, CC-121-S-UO-2V-2C, CC-150-S-UO-2V-2C, CC-150-S-FO-2V-2C, CC-120-S-FO-2V-2C and CC-200-S-FO-2V-2C, front or top operated,

hygienic, touch-free infrared sensor controlled WC flush system, for pre-wall WC elements INEO, 980 N/C or 995, short-range user detection, non-contact activation of 1-volume flush by manual user registration, additional possibility for manual flush activation via push plate (vandal safe in brushed stainless steel with security screw), consisting of push button, actuator frame, actuator support bracket, fixing bolts and security screw, with pre-assembled IR module with low-voltage plug for error-safe installation, with low noise low-voltage motor for lifting device and control electronics, power input: with cable and plug for error-safe installation, output: cable and coded plug for error-safe connection to the power supply and potential-free switch inputs for additional electronic modules, with bracket for low-voltage motor, **without power supply**, packed in a box

Parameters:

- sensor range approx. 60 mm, height/width 145 x 205 mm
- height above tiles 22 mm
- power supply 230V AC mains / 6V DC battery
- manual flush actuation also possible
- flush volume 4.5-9 l depending on the concealed cistern model
- automatic interval flush factory set to 24 h

Settings can be adjusted via service and maintenance remote control DO-25: 0-108 h interval flush after last use of the infrared control system in 12 h increments

Material: brushed stainless steel, alpine white plastic

Colour	Code No.	P1	P2	P3	Recmd. price/€

WC control system using encoded radio signals for accessible construction as per DIN 18040

finishing set with mains supply 230V AC/6V DC

WC flush system for manual remote flush actuation via arm support rails with wireless push button, for concealed cisterns with a small access opening (from year of construction 2014) CC-121-S-FO-2V-2C, CC-122-S-UO-2V-2C and CC-150-S-UO-2V-2C

Contents:

- low-voltage motor for lifting device and control electronics with bracket
- radio receiver module
- power supply 230V AC/6V DC

Parameters:

- automatic interval flush factory set to 24h
- floating output, power rating 42V/0.5 A, pulse duration 0.5 sec.
- connection with up to 32 radio transmitters possible
- manual single flush also possible
- flush volumes from 4.5-9 l depending on the concealed cistern model
- with error-safe plug connections
- power supply for installation outside the concealed cistern
- designed for a maximum distance of 1.7 m between the concealed cistern and the power supply unit

Settings on low-voltage motor can be adjusted via service and maintenance remote control DO-5.1 S*): 0-108 h interval flush after last electronic flush in 12 h increments

- frequency: 868.4 MHz (ISM range, no registration required, not subject to fees)
- transmission security by means of an automatic encoding procedure
- power output: <5mW, range 10m, ambient temperature -20 °C to 65 °C
- radio receiver module with additional output for freely definable function

*) to be ordered separately

WC control system, 2-cable, for accessible construction as per DIN 18040**Finishing set with mains supply 230V AC/6V DC**

WC flush system for manual remote flush actuation via two arm support rails with electric push button (with wire connection) or with an electric push button provided by the customer, for concealed cisterns with small access opening (from year of construction 2014) CC-121-S-FO-2V-2C, CC-122-S-UO-2V-2C and CC-150-S-UO-2V-2C

**Contents:**

- low-voltage motor for lifting device and control electronics with bracket
- 2 cables, 2.1 m long for two floating inputs with 2 luster terminals
- 2 empty pipes, 1.7 m long
- y-plug
- power supply 230V AC/6V DC

Parameter:

- automatic interval flush factory set to 24 h

Settings on low-voltage motor can be adjusted via service and maintenance remote control DO-5.1 S*): 0-108 h interval flush after last electronic flush in 12 h increments

- **manual single flush also possible**
- flush volumes from 4.5-9 l depending on the concealed cistern model
- with error-safe plug connections
- power supply for installation outside the concealed cistern
- designed for a maximum distance of 1.7 m between the concealed cistern and the power supply unit

*) to be ordered separately

WC control system, 2-cable, for accessible construction as per DIN 18040

Finishing set with 6V DC battery

WC flush system for manual remote flush actuation via two arm support rails with electric push button (with wire connection) or with an electric push button provided by the customer, for concealed cisterns with small

access opening (from year of construction 2014) CC-121-S-FO-2V-2C, CC- 122-S-UO-2V-2C and CC-150-S-UO-2V-2C

Contents:

- low-voltage motor for lifting device and control electronics with bracket
- 2 cables, 2.1 m long for two floating inputs with 2 luster terminals
- 2 empty pipes, 1.7 m long
- y-plug
- battery compartment 6V DC

Parameter:

- automatic interval flush factory set to 24 h

Settings on low-voltage motor can be adjusted via service and maintenance remote control DO-5.1 S*): 0-108 h interval flush after last electronic flush in 12 h increments

· manual single flush also possible

- flush volumes from 4.5-9 l depending on the concealed cistern model
- with error-safe plug connections

*) to be ordered separately

	Code No.	P1	P2	P3	Recmd. price/€
	05.393.00..0000	1	5	50

Automatic WC interval flush INEO REED single flush, electronic

automatic WC interval flushing device for concealed cisterns with small access opening in combination with Sanit single and dual flush push plates, with low-noise low-voltage motor as lifting device and control electronics, voltage input and output with mistake-proof plug connection, packed in a box

Parameters:

- defined flushing volumes adjustable via INEO flush valve
- interval flushing factory-set 24 h after last actuation via reed contact

1. power supply: compact power supply unit 100 - 240 V AC / 6V DC

2. power supply: battery compartment for alkaline batteries type LR1924/1,5 V (not included in the scope of delivery)

	Code No.	P1	P2	P3	Recmd. price/€
1. mains supply	05.328.00..0000	1	14	448	
2. battery	05.329.00..0000	1	14	448	

Accessories:

- service and maintenance remote control code no. 03.806.00..0000 see page 131
- concealed installation module code no. 03.933.00..0000 see page 124
- other accessoires see overview page 72/73

Note:

For the concealed cisterns CC-120-S, CC-150-S and CC-200-S, a motor bracket code no. 05.339.00..0000 and a universal flush valve INEO code no. 03.982.00..0000 is required.

Automatic WC interval flush INEO REED dual flush electronic

automatic WC interval flush device for concealed cisterns with access opening in combination with Sanit dual flush push plates, with low-noise low-voltage motor as lifting device and control electronics, voltage input and output with mistake-proof plug connection, packed in a box

Parameters:

- defined flush volumes adjustable via flush valve INEO
- interval flushing factory-set 24 h after last use

1. power supply: compact power supply 100 – 240 V AC / 6V DC

2. power supply: alkaline batteries type LR1924/1,5 V (not included in the scope of delivery)

	Art.-Nr.	VE1	VE2	VE3	Unverb. Richtpreis/€
1. mains supply	05.330.00..0000	1	14	448	
2. battery	05.331.00..0000	1	14	448	

Accessories:

- service and maintenance remote control code no. 03.806.00..0000 see page 131
- concealed installation module code no. 03.933.00..0000 see page 124
- other accessoires see overview page 72/73

Note:

For the concealed cisterns CC-120-S, CC-150-S and CC-200-S a motor bracket code no. 05.339.00..0000 and a universal flush valve INEO code no. 03.982.00..0000 is required.

Pneumatic WC actuator, dual flush

for concealed cisterns with small access opening, CC-121-S-FO-2V-2C, CC-122-S-UO-2V-2C, CC-150-S-UO-2V-2C, CC-150-S-FO-2V-2C and CC-120-S-FO-2V-2C Plastic, for brick and drywall installation, for installation in furniture, w/h 120 x 114 mm, height above tiles 20 mm, minimum installation depth from front edge of wall covering to back edge of roughing-in box 65 mm, in parallel to pneumatic dual flush WC remote flush actuation, it is also possible to actuate flushing of the cistern via Series 700 buttons as dual flushing, start/stop or one-time flushing, with the exception of glass/electronic button 706, consisting of: dual flush WC push button with pneumatic push button unit, dual flush pneumatic lift device, roughing-in box with protection, dual flush pneumatic hose – 2.35 m, empty pipe set with 1.7 m pull cord, installation instructions and fastenings, packed in a box

Colour	Code No.	P1	P2	P3	Recmd. price/€
white	16.301.01..0000	1	5	75	

**Pneumatic WC actuator, single flush**

for concealed cisterns with small access opening, CC-121-S-FO-2V-2C, CC-122-S-UO-2V-2C, CC-150-S-UO-2V-2C, CC-150-S-FO-2V-2C and CC-120-S-FO-2V-2C Plastic, for brick and drywall installation, w/h 120 x 114 mm, height above tiles 31 mm, minimum installation depth from front edge of wall covering to back edge of roughing-in box 65 mm, in parallel to the pneumatic single flush WC remote flush actuation, it is also possible to actuate flushing of the cistern via Series 700 buttons as dual flushing, start/stop or one-time flushing, with the exception of glass/electronic button 706, consisting of: single flush WC push button with pneumatic push button unit, single flush pneumatic lift device, roughing-in box with protection, single flush pneumatic hose – 2.35 m, empty pipe set with 1.7 m pull cord, installation instructions and fastenings, packed in a box

Note: replaces code no. 16.056.01..0000 and code no. 01.513.00..0000

Pneumatic lifting mechanism, single / dual flush

plastic, pneumatic replacement part as a pre-assembled unit with two lifting mechanisms and trip rods, for use with single and dual flush operations, packed in a plastic bag

	Code No.	P1	P2	P3	Recmd. price/€
	05.095.00..0000	1	10	300	

Pneumatic WC unit for arm supports provided by the customer

for concealed cisterns with small access opening, CC-121-S-FO-2V-2C, C-122-S-UO-2V-2C, CC-150-S-UO-2V-2C, CC-150-S-FO-2V-2C and CC-120-S-FO-2V-2C
For brick and drywall installation, in parallel to pneumatic WC actuation on arm supports (provided by customer) with single flush pneumatic push button, it is also possible to actuate flushing of the cistern via Series 700 buttons as dual flushing, start/stop or one-time flushing, with the exception of glass/electronic button 706, consisting of: single flush pneumatic lift device, 2 single flush pneumatic hoses – 2.35 m, 2 empty pipe sets with 1.7 m pull cord, 2 connection nipples for air hoses ext. diam. 4 mm (provided by customer) on arm support, 1 pneumatic T-piece for connecting 2 pneumatic WC push buttons of the same flush volume, with self cutting screw 4.2 x 16, installation instructions and fastenings, packed in a box

Note: only tested in combination with arm support rails from Herger company

	Code No.	P1	P2	P3	Recmd. price/€
	03.651.00..0000	1	10	80	

Pneumatic WC actuation, single flush, for institutions

for concealed cisterns with small access opening, CC-121-S-FO-2V-2C, C-122-S-UO-2V-2C, CC-150-S-UO-2V-2C, CC-150-S-FO-2V-2C and CC-120-S-FO-2V-2C chrome-plated brass, round shape, external diameter 70 mm, single flush push button diameter 35 mm, height above tiles 15 mm, for wall thickness incl. covering up to 270 mm, hole diameter min. 45 mm (prepared by customer), installation depth from wall covering to back of pneumatic push button unit 353 mm, product cannot be cut, in parallel to remote pneumatic single flush actuation, it is also possible to actuate flushing of the cistern via Series 700 buttons as dual flushing, start-stop or one-time flushing, with the exception of glass/electronic button 706, consisting of single flush WC push button for institutions with pneumatic push button unit, single flush pneumatic lift device, single flush pneumatic hose – 2.35 m, installation instructions and fastenings, packed in a box

Note: replaces code no. 16.075.00..0000

DISCONTINUED MODEL – delivery while stocks last

Urinal cover plate INEO BRIGHT infrared, mains supply for cartridge valve technology

contact-free flushing system controlled by infrared sensor, hygienic pre-flush for approx. 0.5 seconds if more than 5 minutes have passed since the last use, can be used with universal cartridge roughing-in set, urinals with a lid should not be used in conjunction with infrared controlled urinal flush systems, with closing function with decreasing operation voltage, plug contacts are fail-safe, height/width/depth 145x125x10 mm, minimum distance to opposite wall: 0.9 m

consisting of: 230V AC/6V DC power supply unit, cartridge filter power supply unit 6V DC, mounting frame with infrared module and control electronics, cover plate, including fastenings and mounting instruction, packed in a box

flow pressure: 0.5-8 bar

flow rate: 0.3 l/sec.

power supply: 6V DC

sensor range: approx. 0.5 m

dwelling time: approx. 5 sec.

main flush: approx. 4 sec.

hygiene period/hygienic flush: 24 h after last use

Basic parameters such as user recognition, colour, main flush time and dynamic flush can be adjusted manually. Further user-specific settings can be made via the maintenance and service remote control.

Vandal safe urinal technology RL1

for cartridge valve technology, conductivity controlled, bidirectional
vandal safe, invisible, contact free, conductively controlled concealed flushing system for urinals, for installation without cover behind ceramic urinals or for installation with a cover plate (code no. 16.076.00..0000) above urinal pan, suitable for ceramic urinals from various manufacturers with horizontal outlet and without incorporated trap, based on the principle of relative and absolute conductivity via 2 stainless steel sensors in the urinal exhaust trap, minimum urine collection approx. 10 ml, independent of water quality, intrinsically safe against drying up of the trap, retrofitting of manual or infrared to vandal safe RL1 technology possible, can be used with the universal cartridge roughing-in set, no corrosion of electrodes because of changing polarity, with closing function with decreasing operation voltage, optical signal when operating voltage is too low, plug contacts are fail-safe

flow pressure: 0.5-8 bar, ideally 3-4 bar

flow rate: 0.24 l/sec.

power supply: 6V DC

CE certified

factory setting:

sensitivity: 10 (adjustable between max. 10-min. 1)

main flush: approx. 4 sec. (adjustable between 3 - 24 sec.)

hygiene period/hygienic flush: 12 h after last use (adjustable between 1,3,6,12,24,48,72,96,108 h)

hygienic flush time: 5 sec. (adjustable between 5,10,15,30,60,90,120,150,180 sec.)

Main flushing time and range can be adjusted via service and maintenance remote control DO-5.1S code no. 03.806.00..0000.

consisting of: urinal chip RL1 with optical head, solenoid cartridge valve 6V DC, with cartridge filter, urinal exhaust trap 500 DN 50 horizontal outlet with pre-assembled stainless steel electrodes, packed in a box

1. power supply: with 230V AC/6V DC power supply unit with 6V DC adapter plug, 600 mm cable

2. power supply mains in-series, 230V AC/6V DC with 6V DC adapter plug, 600 mm cable, for 1-5 urinals (power supply unit code no. 01.254.00..0000 to be ordered separately), data for single connecting cable with in-series installations: max. cable length 10 m with min. cross section of $2 \times 0.75 \text{ mm}^2$, material: copper, longer cable lengths possible with bigger cross sections

Rail

for SANIT drywall construction system 996, galvanised steel, profile 35 x 35 mm, length 5 m, as a wall, ceiling or floor rail and for the construction of installation walls

Size	Code No.	P1	P2	P3	Recmd. price/€
l = 5 m	02.208.00..0000	1	20	120	

Rail fixture

for SANIT drywall construction system 996, galvanised, 80 x 50 x 5 mm, for floor, wall and ceiling fixation of installation walls, incl. fastenings, packed in a plastic bag

	Code No.	P1	P2	P3	Recmd. price/€
	03.545.00..0000	1	10	1200	

Multi-connector 996

angle with multi-connector for SANIT drywall construction system 996, for infinite adjustment of the installation wall depth from 155 to 215 mm (1.) or 255 to 315 mm (2.), incl. rail fixture and fastenings, packed in a plastic bag

Version	Code No.	P1	P2	P3	Recmd. price/€
1.	03.723.00..0000	1	10	660	
2.	03.723.00..5000	1	8	528	

Multi-connector

for SANIT drywall construction system 996, galvanised, for infinite adjustment of the installation wall depth from 155 to 215 mm

	Code No.	P1	P2	P3	Recmd. price/€
	03.803.00..0000	1	10	1200	

Bracket for multi-connector

for SANIT drywall construction system 996, for wall fixation of installation walls, incl. fastenings

	Code No.	P1	P2	P3	Recmd. price/€
	04.159.00..0000	1	60	7200	

Corner connector

for SANIT drywall construction system 996, for the angular, force-fit connection of rails; pre-assembled unit made of galvanised steel, with M 5 crosshead screw and pressure spring, 10 pieces per pack

packaging note:

10 pieces/bag (P1)

20 bags/box (P2)

	Code No.	P1	P2	P3	Recmd. price/€
	03.332.00..0000	1	20	480	

Multi-corner connector

as transport corner connector for prefabricated walls, 3 connection options for profile bars at 90° and 45° angles and parallel to each other, pre-assembled zinc die-cast assembly, with hexagon socket screw M6 (SW 5) and spring element, packed in a plastic bag

	Code No.	P1	P2	P3	Recmd. price/€
	05.251.00..0000	1	20	480	

Connection set

for SANIT drywall construction system 996, for installation on pre-wall elements to be integrated into installation walls of SANIT drywall construction system 996, consisting of 4 clamps and 2 fixing screws, packed in a plastic bag

	Code No.	P1	P2	P3	Recmd. price/€
	03.754.00..0000	1	10	1200	

Module connector

for SANIT drywall construction system 996, for the parallel force-fit connection of rails and drywall modules and for the fixation of M8 threaded rod constructions, e.g. pipe clamps; pre-assembled unit made of galvanised steel, with 6 mm crosshead screw and pressure spring, 10 pieces per pack, packed in a plastic bag

packaging note:

10 pieces/bag (P1)

20 bags/box (P2)

	Code No.	P1	P2	P3	Recmd. price/€
	03.333.00..0000	1	20	480	

Roof pitch connection

for SANIT drywall construction system 996, for the fixation of profile bars to roof pitch wood constructions, consisting of fixing metal plate, fixing angle and stair bolt M8 x150, packed in a plastic bag

	Code No.	P1	P2	P3	Recmd. price/€
	05.132.00..0000	1	20	720	

Support foot for free-standing walls

for SANIT drywall construction system 996, for the integration of pre-wall elements 995/995 N into free-standing walls, consisting of support foot and fastenings

Size l/d/h	Code No.	P1	P2	P3	Recmd. price/€
120 / 80 / 500 mm	04.070.00..0000	1	50		

Pipe clamp mounting M8

for SANIT drywall construction system 996, for fixation pipe clamps to installation walls, packed in a plastic bag

	Code No.	P1	P2	P3	Recmd. price/€
	05.201.00..0000	1	30	990	

Module for water connections

for SANIT drywall construction system 996, for screwed fixation of single water connections to the system, consisting of water resistant, multiple glued ply wood with galvanized support plate and material for the fixation to a SANIT profile bar, packed in a plastic bag

Size	Code No.	P1	P2	P3	Recmd. price/€
	17.281.00..0000	1	20	480	

Module for washing machine connection

for SANIT drywall construction system 996, consisting of metal support plate with concealed trap for washing machines and dishwashers, outlet DN 40/50, with rosette and chromium plated nozzle, material for the fixation to a SANIT profile bar, packed in a box

	Code No.	P1	P2	P3	Recmd. price/€
	17.282.00..0000	1	25	300	

Insulation strip for plaster connection

for SANIT drywall construction system 996, 20 m on roll, to prevent cracks between installation walls and to decouple structure-borne sound

	Code No.	P1	P2	P3	Recmd. price/€
	03.346.00..0000	1	5	120	

1. Plasterboard cladding panel 1300 x 600 x 18 mm

for SANIT drywall construction system 996, 18 mm thick, without cut-outs, for single-layer cladding of installation walls

2. Screws for cladding panel

for SANIT drywall construction system 996, countersunk crosshead screws, self-cutting, 3.5 x 35 mm (screws required: approx. 30/m²)

Packaging note: 200 pieces/bag

3. Universal filler

for SANIT drywall construction system 996, to fill plaster joints with no reinforcement strips inside (filler required: approx. 0.25 kg/m²)

packaging note: 5 kg/bag

WC offset connecting bend INEO SOLO DN 90

for wall-hung WCs

with pre-assembled 90° adapter for mounting on the drain pipe bend clip of the INEO SOLO wall-hung WC module for bridging heights of between 55-160 mm at the wall, can be cut to required length, can be glued, markings on pipe for accurate cutting

supplied with: offset connecting bend DN 90, DN 90/DN 100 PE adapter, laminated seal for waste pipes with an internal diameter of 98-110 mm, adhesive and protection plugs, packed in a box

Note: minimum flushing capacity 6 litres

Size	Code No.	P1	P2	P3	Recmd. price/€
DN 90	58.119.00..0000	1	60		

WC offset connection bend for INEO SOLO DN 90

offset by 30 mm, for wall-hung WCs

in black PE plastic, weldable, for connecting a wall-hung WC to the waste-water system, where heights of 210 to 230 mm are to be bridged at the wall, packed in a box

Size	Code No.	P1	P2	P3	Recmd. price/€
DN 90	58.121.00..0000	1	5	75	

WC offset connecting bend DN 90/DN 100

offset by 70 mm, for wall-hung WCs

in black PE plastic, weldable, for direct connection to wall-hung WCs, e.g. suitable for 8 cm concealed cistern or as a special solution for elements with a small installation depth, with DN 90/DN 100 adapter, packed in a box

tested to DIN 1389 and DIN EN 476, 5.5

dual flush	05.337.00..0000	1	20		

Compact power supply 230V AC/6V DC

for the single power supply of electrical WC control systems for concealed cisterns with small access opening and infrared-controlled washbasin mixers, for installation in drywalls with a wall thickness without tiles of maximum 25 mm.

consisting of:

concealed socket for drywall installation, external d: 72.5 mm, depth 73 mm with power supply 230V AC/6V DC, with **white plastic cover d: 84 mm**, with screws, with 230V AC cable connections, with 1 cable 2.1 m long and special 2-pin 6V DC plug, with empty pipe 1.7 m long incl. pull cord, with CE mark, packed in a box

The power supply unit must be installed outside the cistern, taking into account the regulations regarding safe areas for electrical installations in sanitary rooms.

	Code No.	P1	P2	P3	Recmd. price/€
	03.158.00..0000	1	10	210	

Concealed power supply 230V AC/6V DC for single and series installations

- for power supply of WC infrared control system, small access opening, code no. 16.741.xx..0000, 16.742.xx..0000
- for power supply of 1 – 5 infrared urinal control systems, code no. 16.073.**..0000, 16.094.**..0000
- for power supply of 1 – 5 RL1 urinal control systems, code no. 03.338.00..0000, 03.696.00..0000

consisting of:
roughing-in box 965 x 122 x 85 mm, power supply unit with 2.1 m cable and special plug, tiling set and an additional special plug with +/- marking for expansion of series installation by the customer, packed in a box

The power supply unit must be installed outside the concealed cistern, taking into account the regulations regarding safe areas for electrical installations in sanitary rooms.

specifications for single 6V DC cable connections in series installations:
Max. cable length 10 m, with a minimum cross-section of 2 * 0.75 mm²,
material: Cu
longer cables possible with bigger cross-sections

Accessories:

- cover plate code no. 16.076.00..0000 see page 132

Cover plate S 700

for concealed cisterns CC-150-S-FO-2V-2C, CC-150-S-UO-2V-2C, CC-121-S-FO-2V-2C, CC-120-S-FO-2V-2C and CC-122-S-UO-2V-2C, with small access opening (w/h: 170/100 mm), front/top operated, vandal-safe, consisting of cover plate without mechanical actuator, support frame, fixing bolts and security screw, packed in a box

Material: brushed stainless steel

Colour	Code No.	P1	P2	P3	Recmd. price/€
brushed stainless steel	16.700.00..0000	1	14	448	

Accessories:

- battery compartment for WC control systems code no. 03.161.00..0000 see page 125

Extension set

for concealed cistern INEO CC-121 and CC-122 with small access opening, for fixing of support frame, for a max. mounting height of 165 mm, consisting of 2 quick-fixing bolts, 245 mm long and special screws, for fixing the push plate, incl. cable box with extended cable, cable length 340 mm, packed in a plastic bag

Size	Code No.	P1	P2	P3	Recmd. price/€
l = 340 mm	05.018.00..0000	1	60	720	

Start-/stop set

assembly group for modifying dual flush to start-stop flush, packed in a plastic bag

	Code No.	P1	P2	P3	Recmd. price/€
	03.999.00..0000	1	100	1500	

Flow rate reducer

made of plastic, for later application in SANIT concealed cisterns, effective flow 2.1 l/sec., reduction of flow rate by approx. 0.3 l/sec., especially for rimless wall hung WC-pans, to avoid over-splash, packed in a plastic bag

	Code No.	P1	P2	P3	Recmd. price/€
	04.244.00..0000	1	50	6000	

Adjustable flush reducer

plastic, for later application in SANIT concealed cisterns CC-121 from series-production status 4 and CC-122, flushing flow can be adjusted without removing outlet fitting, especially for rimless wall hung WC-pans and children toilet pan to avoid over-splash, packed in a plastic bag

	Code No.	P1	P2	P3	Recmd. price/€
	05.261.00..0000	1	50	1200	

INEO FRESH box for water box cube

upgrade kit for concealed cisterns INEO CC-121-S-FO-2V-2C, CC-121-S-UO-2V-2C, CC-122-S-FO-2V-2C and CC-122-S-UO-2V-2C, INEO FRESH ensures hygiene and a pleasant fragrance in the toilet, preventing limescale in the cistern and toilet bowl; preferred application in rimless toilet bowls, simple and uncomplicated installation of the box, the water box cubes can be easily refilled through the access opening, economic consumption (ca. 4 weeks/ cube)

scope of supply: INEO FRESH box including 2 water box cubes

The cleaning cubes being used must be suitable for WC plastic cisterns and must not contain chlorine or any oxidizing components, otherwise the cistern may be damaged (e.g. stress cracking).

	05.158.00..0000	1	5	600	

Service and maintenance remote control DO-25

for contact-free adjustment of the pre-set functions as (described in the WC and urinal control systems), plastic case (w) 60 x (h) 80 x (d) 25 mm, with 2 x 1.5V alkaline battery, with usage instructions for customer service and cleaning staff, packed in a box

Attention! Limited to the following urinal control systems: infrared technology (series version 1), RL1 technology (series version 2) up to 2011

	Code No.	P1	P2	P3	Recmd. price/€
	01.103.00..0000	1	5	600	

Bi-directional maintenance and service remote control DO-5.1 S

for non-contact monitoring and change of the factory settings of IR and RL1 urinal control systems, graphic display, languages: English, German, French; plastic case (l) 117 x (w) 79 x (d) 25 mm, with 2 x 1.5V alkaline batteries, DO-5.1 S can be used for urinal infrared technology from 09/2011 (series version 2) and urinal RL1-technology from 09/2011, WC push plate INEO BRIGHT Infrared, WC push plate INEO SCOP, automatic WC interval flush INEO REED (series version 3), packed in a box

PRODUCT GROUP 4

WASTE KITS

Level-access shower channels and boards	4.6.		188-194
Level-access shower wastes and boards	4.5.		195-198
Waste kits for baths and shower trays	4.4.		199-228
Waste kits for laundry sinks, domestic appliances and urinals	4.3.		229-236
Waste kits for sinks and basins	4.2.		237-256
Waste kits for washbasins	4.1.		257-271

Shower channel ES 50, frameless, horizontal waste outlet, height 62 mm

for mortar installation, consisting of stainless steel shower channel, width 50 mm, length 750 mm, minimum installation height of 62 mm, trap height 30 mm (non-standard), drainage flow rate 0.5 l/sec according to DIN EN 1253, incl. stainless steel, ready-to-tile base, glued sealing collar, tiling set and polymer adhesive, packed in a box

Size	Code No.	P1	P2	P3	Recmd. price/€
750 / 50 / 62 mm	03.950.00..0000	1	50		

Accessories:

- flexible connection hose code no. 03.878.00..0000 see page 189
- load distribution plate see below

Load distribution plate

load distribution plate for shower channel ES 50, for use in constructions with low installation height to cover the waste pipe and ensure uniform load distribution, highly pressure-resistant composite board (Alucobond) with sealing film on both sides

Size l/w/d	Code No.	P1	P2	P3	Recmd. price/€
1180 x 995 x 4 mm	04.186.00..0000	1	100		

Sound absorbing set for shower channel ES 50, horizontal outlet

for mortar installation, in case of high sound absorbing demands, consisting of 2 floor insulating boards, (each 1,200x625x30 mm) EP3, foil (2,000x1,250x0.2 mm) / steam break tape (Sd>100m) according to DIN EN 139489, edge insulation strip FSR (8x15 mm) 5m and double sided adhesive tape roll, protection cover, packed in a box

	Code No.	P1	P2	P3	Recmd. price/€

for use in domestic micro lifting systems and faecal-free lifting systems for filtering arising gases, when odours are detected, the filter is exhausted and the two-way vent valve must be replaced, air flow volume at 250 PA = 0.39 l/sec. = 1.4 m³/h, monitored by TÜV Rheinland LGA Products GmbH

Version	Code No.	P1	P2	P3	Recmd. price/€
with rubber connector, suitable for DN 30/40/50	11.029.00..0099	1	200	1200	

Two-way vent valves for waste water pipes 7.3.

The problem-solver for pressure compensation in waste water systems – a two-way vent valve with an additional filter comprising an activated carbon filter pad

- ventilair duplex operates as a 2-way system, i.e. with both negative and positive pressure applications
- ventilair duplex aerates in the same way as a conventional air-admittance valve
- ventilair duplex vents the system in the case of a defect in the piping, where by the drainage gases are neutralised by the activated carbon filter
- ventilair duplex is easy to open and close to change the filter cartridge
- average lifetime for filter cartridge is 2 years

Notes:

ventilair duplex two-way vent valves are subjected to regular internal testing in accordance with DIN EN 12380. They do not comply with the standards DIN 1986-100 and DIN EN 12056-2, thus installation should be governed by a contractual agreement.

ventilair duplex® two-way vent valve DN 30 - 50

volume flow 8 l/sec, temperature range -20°C to +60°C, with activated carbon filter, polystyrene frost protection cover and rubber connector for the stated dimensions

PRODUCT GROUP 1

WC ACCESSORIES

Cisterns	1.1.		290-297
Fill valves / Flush valves	1.2.		298-299
WC connectors	1.3.		300-330
WC seats	1.4.		331-339
Special flush pipe bends	1.5.		340-344
Spare parts WC accessories	1.6.		345-367

Cisterns 1.1.

Cistern 937

a low-level cistern with a flushing capacity of 6 litres, insulated against condensation, with start-stop technology, 3-side connection and a low-noise fill valve
supplied with: cistern 937, also with copper tube for water inlet from behind, flush pipe bend and flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

1. with angle valve G ½ and chromium-plated connection pipe
2. without angle valve, without chromium-plated connection pipe

Colour	Code No.	P1	P2	P3	Recmd. price/€
1. alpine white	91.701.01..0000	1	36	72	
2. alpine white	91.701.01..S000	1	36	72	

Cistern 936

a low-level cistern with a flushing capacity of 6 litres, insulated against condensation, with start-stop technology, 3-side connection and a low-noise fill valve
supplied with: cistern 936, flush pipe bend and flush pipe connector, with angle valve G ½ and chromium-plated connection pipe, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

Colour	Code No.	P1	P2	P3	Recmd. price/€
alpine white	91.601.01..0000	1	32	64	

Cistern junior

a low-level cistern with a flushing capacity of 6 litres, insulated against condensation, with start-stop technology, 3-side connection and a low-noise fill valve

supplied with: cistern junior, chromium-plated connection pipe, flush pipe bend and flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

1. with angle valve G ½
2. without angle valve

Cistern 951

a low-level cistern with an adjustable flushing capacity of 6-9 litres, factory setting: 6 litres, insulated against condensation, water-saving system with dual flush (9/3 l or 6/3 l), can be converted for start-stop flush and 4.5-litre flush with push button supplied, with 3-side connection and low-noise fill valve

supplied with: cistern 951, start-stop button, flush pipe bend and flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

1. with angle valve G ½ and chromium-plated connection pipe
2. without angle valve, without chromium-plated connection

Colour	Code No.	P1	P2	P3	Recmd. price/€
1. alpine white	91.101.01..0000	1	12	36	
2. alpine white	91.101.01..S000	1	40		

Cistern verona duo

a low-level cistern with an adjustable flushing capacity of 6-9 litres, factory setting 6 litres, insulated against condensation, water-saving system with dual flush (9/3.5 l or 6/3.5 l) and start-stop function, immediate flush flow interruption with the small button, 3-side connection and low-noise fill valve

supplied with: cistern verona duo, with angle valve G ½, chromium-plated connection pipe, flush pipe bend and flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I

Colour	Code No.	P1	P2	P3	Recmd. price/€
alpine white	91.A06.01..0000	1	26	52	

Cisterns 1.1.

Cistern bonito duo

a low-level cistern with an adjustable flushing capacity of 6-9 litres, factory setting: 6 litres, insulated against condensation, water-saving system with dual flush (9/3.5 l or 6/3.5 l) and start-stop function, immediate flush flow interruption with the small button, 3-side connection and low-noise fill valve

supplied with: cistern bonito duo, chromium-plated connection pipe, flush pipe bend and flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

1. with angle valve G ½
2. without angle valve

Colour	Code No.	P1	P2	P3	Recmd. price/€
1. alpine white	91.A04.01..0099	1	26	52	
bahama beige	91.A04.04..0099	1	26	52

Cistern bonito duo complete set for replacing existing flush valves

a low-level cistern with an adjustable flushing capacity of 6-9 litres, factory setting: 6 litres, insulated against condensation, water-saving system with dual flush (9/3.5 l or 6/3.5 l) and start-stop function, immediate flush flow interruption with the small button, central water inlet behind and low-noise fill valve

supplied with: cistern bonito duo, complete with short brass angle valve G ½ and chromium-plated connection pipe, brass reducer 3/4 x 1/2 flow valve, flush pipe 450 x 220 mm, flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

Colour	Code No.	P1	P2	P3	Recmd. price/€
alpine white	91.A04.01..0005	1	26	52	

Accessories:

- flow rate reducer code no. 04.174.00..0000 see page 179

Cistern bonito

a low-level cistern with an adjustable flushing capacity of 6-9 litres, factory setting: 6 litres, insulated against condensation, start-stop technology, 3-side connection and low-noise fill valve

supplied with: cistern bonito, with angle valve G ½ and chromium-plated connection pipe, flush pipe bend and flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

Colour	Code No.	P1	P2	P3	Recmd. price/€
alpine white	91.A03.01..0099	1	26	52	

**Cistern nova**

a low-level cistern with an adjustable flushing capacity of 6-9 litres, factory setting: 6 litres, insulated against condensation, start-stop technology, 3-side connection and low-noise fill valve

supplied with: cistern nova, with angle valve G ½, chromium-plated connection pipe, flush bend and flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

Colour	Code No.	P1	P2	P3	Recmd. price/€
alpine white	91.A00.01..0099	1	28	56	

Cistern 928

a low-level cistern with an adjustable flushing capacity of 6-9 litres, factory setting: 6 litres, insulated against condensation, with start-stop technology, prepared for 3-side connection and low-noise fill valve

supplied with: cistern 928, flush pipe bend and flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

1. with angle valve G ½ and chromium-plated connection pipe
2. without angle valve, without chromium-plated connection pipe

Colour	Code No.	P1	P2	P3	Recmd. price/€
1. alpine white	91.903.01..0000	1	26	52	
2. alpine white	91.903.01..S000	1	52		

Accessories:

- connection set for water inlet from behind code no. 02.073.00..0000 see page 352

Cistern 928 U

adjustable flushing capacity of 6-9 litres, factory setting: 6 litres, insulated against condensation, with start-stop technology, prepared for 3-side connection and low-noise fill valve

supplied with: cistern 928 U, flush pipe bend and flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

1. low-level, with angle valve G ½ and chromium-plated connection pipe
2. high/low-level, without angle valve, without chromium-plated connection pipe, with flush pull

Colour	Code No.	P1	P2	P3	Recmd. price/€
1. alpine white	91.905.01..0000	1	26	52	
2. alpine white	91.905.01..S000	1	52		

Accessories:

- connection set for water inlet from behind code no. 02.073.00..0000 see page 352

Cistern 961/2V (topstar duo)

a close-coupled cistern, with an adjustable flushing capacity of 6-9 litres, insulate against condensation, with a water-saving system with dual flush (9/3 l or 6/3 l), factory setting: 6 litres, 3-side connection and low-noise fill valve, for floor-standing and wall-mounted wash-out and wash-down WC pans with close-coupled cistern, fixation of the cistern is adjustable (width: 127-233, depth: 150 ± 25)

supplied with: cistern 961/2V, with flexible hose for back inlet, sealing rings, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

1. with angle valve G ½ and chromium-plated connection pipe
2. without angle valve, without chromium-plated connection pipe

Colour	Code No.	P1	P2	P3	Recmd. price/€
1. alpine white	94.504.01..0000	1	20	40	
2. alpine white	94.504.01..S000	1	40		

**Corner Cistern 927 (delta)**

a low-level cistern with an adjustable flushing capacity of 6-9 litres, factory setting: 6 litres, insulated against condensation, start-stop technology, 4-side connection and low-noise fill valve

supplied with: corner cistern 927 (delta), with angle valve G ½, chromium-plated connection pipe, flush pipe bend and flush pipe connector, fastenings and mounting instructions, packed in a box

Cistern tested to DIN EN 14055, Noise Class I, KIWA

Colour	Code No.	P1	P2	P3	Recmd. price/€
alpine white	91.902.01..0000	1	12	24	

Universal fill valve 510 (multiflow)

small, compact construction, rapid filling rate of 3.6 l/min at 0.5 bar flow pressure, quick closing, extremely quiet, only 13 dB(A) (Noise Class I), easy to install and maintain due to simple snap and plug connections, brass connection, adjustable flush water volume controlled by an continuously variable float, with telescopic pipe, for universal application in plastic and ceramic exposed cisterns and concealed cisterns

tested to DIN EN 14124, KIWA, SVGW, NF

1. packed in a box
2. packed in a plastic bag

Size G x L	Code No.	P1	P2	P3	Recmd. price/€
1. G 3/8 x 30	25.001.00..0000	1	24	288

Universal fill valve 510 (multiflow) with Z pipe

small, compact construction, rapid filling rate of 3.6 l/min at 0.5 bar flow pressure, quick closing, extremely quiet, only 13 dB(A) (Noise Class I), easy to install and maintain due to simple snap and plug connections, brass connecting parts, adjustable flush water volume controlled via continuously variable float, with telescopic pipe, with Z pipe and screw connection for concealed cisterns, packed in a plastic bag

tested to DIN EN 14124, KIWA, SVGW, NF

Size G x L	Code No.	P1	P2	P3	Recmd. price/€
G 3/8 x 30	25.001.00..S000	1	30	960	

Universal fill valve 510 U

small compact construction, rapid filling rate of 3.6 l/min at 0.5 bar flow pressure, quick closing, extremely quiet, only 13 dB(A) (Noise Class I), easy to install and maintain due to simple snap and plug connection, adjustable flush water volume controlled via continuously variable float, with telescopic pipe, plastic connection, for use in ceramic cisterns with bottom water inlet, packed in a plastic bag

Size G	Code No.	P1	P2	P3	Recmd. price/€
G 3/8	25.009.00..0000	1	25	400	
G 1/2	25.010.00..0000	1	25	400	

Dual flush valve INEO for ceramic cisterns with lid fixation

for initial fitting or replacement of close-coupled ceramic cisterns with dual flush technology (9/3 or 6/3 litres), flexible cable flush actuation, full and partial flush volume infinitely adjustable between 9 and 6 litres and 4.5 and 3 litres respectively, variable installation height of 320 to 420 mm, push-button countersunk in lid or mounted on lid, suitable for hole diameters of 18 and 38 mm

supplied with: dual flush mechanism with safety catch for the cistern lid, chrome-plated push-button and rosette, fixing set for attaching cistern to WC, installation instructions, packed in a box

	Code No.	P1	P2	P3	Recmd. price/€
	93.606.81..0000	1	25	150	

WC connectors 1.3.

DN 90/DN 100	58.942.00..0000	1	4	60	

WC connection pipe DN 90/DN 100, flexible, straight, 3 spaces adjustable

in black PE plastic, weldable, for difficult concealed cistern installations and for corner solutions and shaft connections, with DN 90/DN 100 adapter, l = 410-580 mm, packed in a plastic bag

tested to DIN 1389 and DIN EN 476, 5.5

Size	Code No.	P1	P2	P3	Recmd. price/€
DN 90/DN 100	58.941.00..0000	1	4	60	

WC offset connecting bend DN 90/DN 100, offset by 50 mm

in black PE plastic, weldable, for converting floor-standing WCs with a horizontal wall connection to wall-hung WCs, with no modification of existing outlet, with DN 90/DN 100 adapter, can be fitted to waste pipe clips on concealed cisterns with a minimum diameter of 97 mm, slot width of 16 mm for mounting, packed in a box

tested to DIN 1389 and DIN EN 476, 5.5

Size	Code No.	P1	P2	P3	Recmd. price/€
DN 90/DN 100	58.936.00..0000	1	5	75	

**WC offset connecting bend DN 90/DN 100, offset by 80 mm**

in black PE plastic, weldable, for converting floor-standing WCs with a horizontal wall connection to wall-hung WCs, with no modification of existing outlet (increasing the sitting height by 30 mm to that of wall-hung WCs), with DN 90 to DN 100 adapter, can be fitted to waste pipe clips on concealed cisterns with a minimum diameter of 97 mm, slot width of 16 mm for mounting, packed in a box

tested to DIN 1389 and DIN EN 476, 5.5

Size	Code No.	P1	P2	P3	Recmd. price/€
DN 90/DN 100	58.937.00..0000	1	84		

WC connectors 1.3.

WC offset connecting bend DN 90/DN 100, offset by 70 mm
in black PE plastic, weldable, for direct connection to wall-hung WCs, e.g. suitable for 8 cm concealed cisterns or as a special solution for elements with a small installation depth, with DN 90/DN 100 adapter, packed in a box

tested to DIN 1389 and DIN EN 476, 5.5

Size	Code No.	P1	P2	P3	Recmd. price/€
DN 90/DN 100	58.940.00..0000	1	84		

Flush pipe connector

for internal WC connection

1. for low-level cisterns, flush pipe d: 45 mm

SWIMMING POOL GRATINGS

Right-angled model / parallel gratings

386-388

SANIT swimming pool gratings

For more than 40 years, our swimming pool gratings have been used in outdoor and indoor swimming pools: for perfect covering of overflow channels and effective drainage of overflow water.

There are two models to choose from, with ribs across or parallel to the edge of the pool. Both types are tested according to DIN 51097 by SäureFliesner-Vereinigung e.V. (approved German testing institute) and classified in the highest evaluation class "C" for non-slip safety. The solid ribs are accident-proof and cannot be broken when stamped upon, even if on purpose. The gratings are made of a special high impact-proof plastic with excellent ageing resistance. The material is fully recyclable.

Further advantages and characteristics of our swimming pool gratings are:

- extremely resilient
- optimal water drainage into overflow channel
- resistant to chemicals, weathering and UV light
- high resistance to chlorine, seawater and curative water
- temperature-resistant from +80°C to -30°C
- non-rattling
- excellent antistatic properties
- fast installation
- easy handling, therefore easy cleaning of grating and overflow channel

Offers on request
Phone: + 49 (0) 9563 93131

PERFECTLY COVERED

Right-angled model

The solid ribs are connected by tie rods made of V4A stainless steel.

The point load per individual rib is at least 75 kg.

Standard colours: light grey (RAL 7032), white (RAL 9016).
Special colours available on request.

Variable widths: from 100 - 450 mm.

Rib height: 25 mm up to 350 mm width, 35 mm > 350 mm width
Rib can be adapted to the height of the overflow channel

Standard length: 1000 mm, intermediate lengths available

rib width: 12 mm

distance between ribs: 8 mm

The mitred corners round off the range: 90 degree inside and outside corners, special corners of all degrees available.

Our curved gratings offer a large scope for design.

The right-angled grating can be manufactured in the most different radii, so that it adapts perfectly to any basin form and whirlpool.

Parallel gratings

The solid plastic elements are 500 mm long and can be easily connected to each other by their integral pins.

The point load per load-bearing transverse rib is at least 75 kg.

Standard colours: light grey (RAL 7032), white (RAL 9016).

Special colours available on request.

Variable widths: from 100 - 320 mm.

Rib height: 25 mm up to 250 mm width, 35 mm > 250 mm width

Rib can be adapted to the height of the overflow channel

Standard length: 500 mm

Rib width: 12 mm

Distance between ribs: 8 mm

The mitred corners complete the range: 90 degree inside and outside corners, leg length 500 mm, special corners of all degrees available.

Fittings for FRIATHERM rigid

Component+ adhesive

for high-strength FRIATHERM rigid bonded joints, fittings and adapters

Pipe-dimension	Code No.	Type	P1	Euro/piece
d 16 - 90	75.571.70..0000	120 g tin (125 ml)	1	

Fittings for FRIATHERM starr and TECEquickpipe pipes

Glued connections of TECEquickpipe pipes with rigid fittings in dimensions d16 to d90 can be made.

The following **conditions** must be met:

- exclusive use of Component+adhesive
- processing with appropriate tools and materials
- the pressure levels used as a basis for the planning of the existing TECE quickpipe network must be observed without fail.

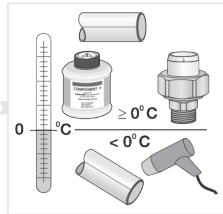

Note:

Combinations of TECEquickpipe fittings with FRIATHERM rigid pipes are not allowed. This combination cannot ensure a leak-tight connection.

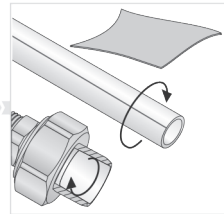

Establishing a press-fit welding joint

- pipe cutting
- deburring

- surface and adhesive must be kept $\geq 0^{\circ}\text{C}$ during gluing process

- surface to be cleaned with grease-free cloth

- apply Component+

- push parts together, adjust and hold in place for at least 5 sec.

- allow to set for 2 minutes

- $\geq 10^{\circ}\text{C} \leq 6 \text{ bar}$ after 30 min
- $\geq 10^{\circ}\text{C} \leq 15 \text{ bar}$ after 120 min
- $\leq 10^{\circ}\text{C} \leq 15 \text{ bar}$ after 240 min

Assembly instructions

Pipe cutting

Pipe cutting

Pipes are generally cut by a roller pipe cutter or by a mitre saw.

Only use roller pipe cutters suitable for plastic pipes. Do not use pipe scissors.

Deburring

Deburring

Use reamers depending on the relevant.

- Inside and outside chamfering tool d 16 - 25 mm

- Chamfering tool d 20 - 63 mm

Standard reamers/ chamfering tools suitable for plastic pipes can be used.

Fittings for FRIATHERM multi and FRAITHERM uni

No push-fit fittings are available for FRIATHERM multi pipes

Existing FRIATHERM multi pipes can be further processed with the following transitions to the FRIATHERM uni press system.

Transitions, external thread

for drinking water and heating lines composed of FRIATHERM uni and FRIATHERM multi pipes; material: tin-coated brass, pre-assembled press-fit bush made of stainless steel, with inspection window

Pipe-dimension	Code No.	d	Product	P1	Euro/ piece

Loan tools for press connections

Processing the loan tool for press connections

The tools are provided on loan for a **maximum of 14 days** and must be returned to SANIT GmbH after work has been completed. After the loan period, a rental fee / day will be charged. The tools can not be purchased.

Chamfering and calibration tools (1 and 3 with handle, 2 without handle)

**Note for FRIATHERM multi and uni pipes:**

- in dimensions **d 16** and **d 20** the multi tube can be pressed directly with the uni transitions
- to prepare a multi tube **d 25** for a press connection with a uni transition d 26, the special calibration and deburring tool (code no. 75.489.32.0000) must be used

1	73.340.46..0000	Flush pipe bend since 11/2000	1	
2	73.275.00..0000	Lip sealing for flush pipe d 45	1	

Inliner

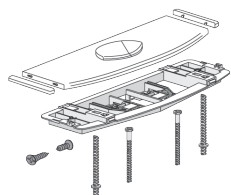

Damage to the cistern body, regardless of what caused it, can be corrected promptly and without interfering with existing tiling.

consisting of:

- complete cistern liner (called „inliner“ here) including bottom valve and O-ring
- 2 clamping rings (1 large, 1 small)
- drain fitting with a shortened siphon
- 3 labels

Code No.	Type	P1	Euro/ piece
73.212.10..0000	Inliner	1	
73.212.02..0000	Outlet valve for inliner	1	

Model F 200 – push plate, top-operation, two-button version

consisting of:

- operation panel with two buttons for spring-mounted dual-volume flushing
- installation frame, including anti-removal lock
- fixing material

Code No.	Type	P1	Euro/ Set
73.320.01..0000	alpine white, glossy	1	

Spare parts list concealed toilet flushing cisterns with operation panel F 200

Accessories for model F 200, F 201

No.	Code No.	Type	P1	Euro/ piece
1	73.340.11..0000	Mounting frame	1	
2	73.340.06..0000	Kit of operation and fixing bolts and self-tapping screws for top operated panel (2 pcs)	1	
3	73.391.00..0000	Extension set (5-15 cm) for model F 200, F 201	1	

Additional spare parts

Code No.	Type	P1	Euro/ piece
73.340.17..0000	Lip sealing d 90 for outlet bend and connection bend	1	

Spare parts list urinal elements 1996 - 07/2004, lower valve part made of plastic

Exchange set to repair urinal operation units, edition 1996 – 07/2004

Exchange set for manual actuation

for reparation purpose of urinal actuation version 1996 - 07/2004

consisting of:

- Urinal lower valve unit complete (metal version)
- Fixing clips for urinal lower valve unit
- Self tapping screws for urinal (1 set = 2 pieces)
- Urinal upper valve unit for manual actuation (metal version)

Code No.	Type	P1	Euro/ piece
73.396.60..0000	Manual actuation	1	

Exchange set for IR actuation, battery 6V

for reparation purpose of urinal actuation version 1996 - 07/2004

consisting of:

- Urinal lower valve unit complete (metal version)
- Fixing clips for urinal lower valve unit
- Self tapping screws for urinal (1 set = 2 pieces)
- Urinal upper valve unit for IR actuation (metal version)
- Power supply unit with battery/ 6 voltage
- IR actuation sensor ready to connect (metal version)

Code No.	Type	P1	Euro/ piece
73.396.70..0000	IR actuation battery / 6V	1	
02.993.00..0000	6V lithium DC photo battery CR P2	1	

Exchange set for IR actuation 230V

for reparation purpose of urinal actuation version 1996 - 07/2004

consisting of:

- Urinal lower valve unit complete (metal version)
- Fixing clips for urinal lower valve unit
- Self tapping screws for urinal (1 set = 2 pieces)
- Urinal upper valve unit for IR actuation (metal version)
- Adapter for 230V supply voltage
- Power supply unit with 230 voltage
- IR actuation sensor ready to connect (metal version)

Code No.	Type	P1	Euro/ piece
73.396.80..0000	IR actuation 230V	1

1. Scope of Application

1.1 Our General Terms of Delivery and Payment (hereinafter referred to as: terms of delivery) shall apply exclusively. We are not bound to any deviating terms of the buyer that we do not expressly acknowledge in writing, even if we do not expressly object to them. An order by the customer shall be deemed as acknowledgment of our terms of delivery. Our terms of delivery shall also apply if we execute the delivery in knowledge of contradictory or deviating terms of the buyer without reservation.

1.2 Our terms of delivery apply only vis-à-vis persons who when entering into the contract are exercising their commercial or independent professional activity (entrepreneur within the meaning of Section 310 para. 1 BGB [German Civil Code]) as well as vis-a-vis legal entities under public law or public-law special funds.

1.3 These terms of delivery shall also apply as amended as a framework agreement (Section 305 para. 3 BGB) to future offers and contracts on the sale or delivery of goods with the same customer, without the need for us to again point to them in each individual case. We shall promptly inform the buyer of changes to our terms of delivery in this case.

2. Contract Issuance

2.1 Our offers are subject to change and non-binding if they are not expressly identified as binding or contain a specific deadline for acceptance.

2.2 Our written order confirmation is required for the scope of the delivery.

2.3 All agreements reached for performance of the contract are components of the agreement only if they were established in writing.

2.4 Changes to the technical design of the ordered products in a commercially customary manner are permissible if such does not cause a substantial change in function or the customer cannot reasonably be expected to accept such change.

2.5 We warrant the quality of an item only if it has been expressly promised in our order confirmation or in our advertising.

3. Prices and Payment Terms

3.1 If no other arrangement is made in the order confirmation, our prices are „ex works“ (EXW, Incoterms® 2020). The costs for packaging, dispatch, insurance

and customs duties etc. will be invoiced separately. We are entitled to invoice partial deliveries separately if we are allowed to pursuant to item 4.2.

3.2 We reserve the right to increase our prices accordingly if, after conclusion of the contract, cost increases, in particular based on wage agreements or increases in the cost for materials are incurred. Upon request by the customer, we will provide proof of such increases. The provision established in this paragraph does not apply if fewer than 6 weeks have elapsed between contract issuance and the agreed delivery date.

3.3 The statutory value added tax is not included in our prices; it will be shown separately in the invoice in the statutory amount on the date the invoice is issued.

3.4 Discount deductions require a special written agreement.

3.5 If no other arrangement is reached regarding the order confirmation, payment shall be made without deductions within 14 days after receipt of the invoice, but no later than 30 days after delivery. The statutory provisions apply to the consequences of default of payment.

3.6 The buyer is entitled to the right of offset only if his counterclaims have been upheld by a court, are uncontested or acknowledged by us. The buyer is also not entitled to a right of reservation due to counterclaims that are disputed and not upheld by a court.

3.7 In the event the buyer fails to comply with the terms of payment or in circumstances in which the creditworthiness of the buyer is called into question, we are entitled to demand immediate cash payment for all deliveries. We are also entitled to provide outstanding deliveries only against advance payment or the furnishing of security or to withdraw from the contract and demand compensation for damage. We are also entitled to forbid the resale of the goods delivered under reservation of title and to immediately recover the goods at the buyer's expense if we have withdrawn from the contract.

4. Delivery

4.1 Specifications of particular delivery periods and dates are subject to the reservation that we are ourselves supplied correctly and in a timely fashion.

4.2 Within reasonable parameters, we are entitled to make partial deliveries.

4.3 The start of the delivery period is conditional on the timely and proper fulfilment of the buyer's obligations. If these obligations are not met in a timely fashion, the delivery period shall be extended correspondingly. The delivery period will also be extended appropriately if its non-compliance is attributable to force majeure, e.g. war or similar events, such as a strike.

4.4 A delivery period or a delivery date shall be deemed to have been met if readiness to dispatch or pick-up is reported before expiry or the goods have departed from the plant or the warehouse or are handed over to the forwarding agent, the carrier or to another person entrusted with the transport.

4.5 Default of delivery is determined by the statutory provisions. But in any case, a reminder by the buyer is required.

4.6 In the event of default for delivery for which we are responsible, the buyer – if his claim of damage suffered is convincing – is exclusively entitled to demand a lump sum compensation for default in the amount of 0.5% of the order value, a maximum of 5% of the order value for each completed week of default. We reserve the right to prove to the buyer that no damage was suffered as a result of the default of delivery or that a substantially lower damage was incurred. Both claims for compensation by the buyer based on a delay in delivery and claims for compensation in lieu of performance, which extend beyond the above limit, are excluded in all cases of delayed delivery.

4.7 The rights of the buyer pursuant to item 8 of these terms of delivery and our legal rights, in particular in the event of an exclusion of the performance obligation (e.g. based on impossibility or unreasonableness of performance and/or subsequent performance) shall remain unaffected.

4.8 If we are responsible for the default of delivery, the buyer may withdraw from the contract if he has previously given us a reasonable grace period and it has expired without yielding a desired result. Upon our request, the buyer must inform us within a reasonable period of time whether he wishes to withdraw from the contract due to the delay of delivery or insists on delivery. This does not apply if a commercial transaction for a fixed date has been agreed.

5. Transfer of Risk

5.1 If no other arrangement is reached in the order confirmation, delivery „ex works“ (EXW, Incoterms® 2020) is agreed.

5.2 Upon the buyer's request we will take out transport insurance for the delivery to cover typical transport risks; the buyer will bear the costs incurred.

5.3 In agreed deliveries, the risk of accidental loss or accidental deterioration of the delivery is transferred to the buyer, to include freight pre-paid delivery as soon as the delivery has been transferred to the person performing the transport or for the purpose of dispatch, has left our warehouse.

5.4 If to fulfil our performance obligation we are obligated only to make the delivery ready for pick up at our location, the delivery is ready for dispatch and pick up and the pick-up is delayed for reasons for which we are not responsible, the risk of accidental loss or accidental deterioration of the delivery shall be transferred to the buyer as soon as the buyer has received notification of dispatch or pick-up readiness. If notification of dispatch readiness is not made, the risk is transferred to the buyer upon transfer of the goods to the carrier, but no later than upon departure from the plant or warehouse. This also applies when our transport facilities are used or prepaid delivery is made.

6. Reservation of Title

6.1 In all cases, we reserve the right of reservation of title to all goods delivered. Ownership is not transferred to the buyer until after complete payment.

6.2 The buyer shall promptly inform us of pledges or other interventions by third parties so that we can file an action pursuant to Section 771 ZPO [Code of Civil Procedure]. If the third party is not in a position to reimburse us for the court costs of such action, the buyer is liable for the shortfall we have incurred.

6.3 The buyer is entitled to resell the delivered goods in the ordinary course of business; however, with immediate effect, he assigns to us all claims in the amount of the invoiced final amount (including value added tax) that he accrues from the resale vis-à-vis his buyers or third parties, irrespective of whether the item was resold without or after processing. We accept this assignment with immediate effect.

6.4 The buyer shall also retain the right to collect the assigned claims after the assignment. Our authority to

collect the claim ourselves shall remain unaffected. We are obliged, however, not to collect the claim as long as the buyer fulfills his payment obligations under the appropriated proceeds, is not in default of payment and no insolvency proceedings have been instituted against his assets or he has ceased making payments. As soon as we can collect on assigned claims ourselves, the buyer is obliged upon our request to disclose to us the assigned claims and their debtors, to give us all information required for collecting, to give us the corresponding documents and to report the assignment to the debtors (third parties).

6.5 The buyer is entitled to use the goods in the customary course of business and to process/transform them. The buyer will always process or transform the delivered goods for us. If the delivered goods are processed with other objects that do not belong to us, we shall acquire co-ownership of the new object in proportion to the value of the delivered goods to the other processed objects at the time of processing. With respect to the object created by the processing, the same applies as for the goods delivered under reservation.

6.6 If the delivered goods are inseparably commingled with other objects that do not belong to us, we shall acquire co-ownership of the new object in proportion to the value of the delivered goods to the other commingled objects at the time of commingling. If the commingling is carried out in a manner such that the delivered goods can be seen as the main object, it is agreed that the buyer shall transfer co-ownership proportionately. The buyer shall safeguard the thus created sole ownership or co-ownership for us.

6.7 Any conduct contrary to the terms of the contract by the buyer, in particular in the event of default of payment, entitles us to recover the goods delivered under reservation of title and the buyer is obliged to hand them over. If we take back or pledge the reserved goods, this shall not constitute a withdrawal from the contract. In the event we take back the delivered goods, we are entitled to exploit the delivered goods in the best way possible after issuing a prior, appropriate deadline. The proceeds from the exploitation shall be credited to our claims after deducting reasonable exploitation costs.

6.8 If particular measures are required for export transactions at the location where the delivered goods are located after delivery to render the pre-processed reservation of title or the assignment effective, the buyer shall point this out to us and carry out such measures at his own expense. If reservation of title or other pre-processed rights cannot be considered at the location in which the delivered goods are located after delivery, the buyer shall do everything to acquire security interests in the delivered goods for us that are closest to this right at his expense.

6.9 Upon request by the buyer, we are obliged to release the securities that we are entitled to as the realisable value of our securities that exceeds the claims to be secured by more than 10%. We are responsible for selecting the re-leasable securities.

6.10 The buyer is obliged to adequately insure the goods as long as our reservation of title applies.

7. Notification of Defects, Claims for Defects, Period of Limitation

7.1 If the buyer is a merchant, the assertion of warranty rights is conditional on his having properly complied with his inspection and notification of defects duties pursuant to Section 377 HGB. For entrepreneurs, this benchmark applies accordingly. The buyer shall promptly notify defects after receiving the goods, but no later than within eight calendar days after receipt, if possible in writing. The same period applies to hidden defects as of the date discovered. Claims for defects shall lapse for defects not notified in a timely manner.

7.2 We will repair defects in the delivered goods at our discretion or take back the goods and redeliver (subsequent performance). We may refuse subsequent performance if it is possible only with disproportionate costs or disproportionate effort and another type of subsequent performance is without substantial disadvantages for the buyer.

7.3 If subsequent performance fails or if we refuse to do so, the buyer may withdraw from the contract or demand a reduction in the delivery price.

7.4 Claims for defects are invalid for defects that represent only an insignificant deviation of the delivered goods from the agreed composition, for defects that represent only an insignificant effect on usability.

ty, for natural wear and tear or damage caused after transfer of risk as a result of faulty or negligent handling, excessive stress etc. If the buyer or a third party makes inappropriate changes or performs inappropriate repair work, no claims for defects shall apply to such actions and the resulting consequences.

7.5 Periods of limitation for claims for defects are:

- a) for the delivery of building materials that were installed and have caused defects in the structure, 5 years;
- b) for delivery of other new goods to entrepreneurs, 1 year;
- c) otherwise 2 years.
- d) For delivery of used goods to companies, liability for defects is excluded.
- e) The above periods at b) and d) do not apply to claims for compensation by the buyer for injury to life and limb or health or that are based on intentional or grossly negligent breach of duty by us, our legal representatives or our vicarious agents. These claims expire in accordance with the statutory provisions.
- f) Additional statutory special provisions on periods of limitation (in particular Section 438 para. 1 No. 1, para. 3, Sections 444, 445 b BGB) shall remain unaffected.

7.6 The period of limitation for claims for defects starts upon delivery of the object; if acceptance is required, as of acceptance.

7.7 For replacement delivery and remedying defects, the period of limitation for replaced or repaired goods, to include cases of goodwill, does not start anew. If in exceptional cases, an acknowledgement has been provided, it relates only to those defects that were the object of the demand for subsequent performance.

7.8 The periods of limitation under sales law listed under item 7.5 shall also apply to the buyer's contractual and extra-contractual claims for compensation, which are based on a defect in goods, unless the application of the standard statutory period of limitation (Sections 195, 199 BGB) would lead to a shorter period of limitation in an individual case. However, the buyer's claims for compensation pursuant to item 8.2 a) as well as pursuant to the Product Liability Act expire exclusively pursuant to the statutory periods of limitation.

7.9 Claims by the buyer for expenditures required for the purpose of subsequent performance are excluded if they are increased because the delivered goods were subsequently dispatched to a location other than the buyer's establishment, unless taking them to that location is in accordance with the intended use of the delivered goods.

7.10 The buyer's rights of recourse against us pursuant to Section 478 BGB obtain only if the buyer has not reached any agreements with his buyer that exceed statutory warranty rights. Item 7.9 applies accordingly to the scope of a right of recourse.

8. Other Liability

8.1 If no other arrangement is reached in these terms of delivery, including the following provisions, we are liable for the breach of contractual obligations and extra-contractual obligations pursuant to the statutory provisions.

8.2 With respect to compensation for damages we are liable – on whatever legal grounds – for fault-based liability in the event of intent and gross negligence. For simple negligence, we are liable, subject to a milder liability benchmark, pursuant to the statutory provisions (e.g. for care in one's own affairs) only

- a) for injury to life, limb or health,
- b) for damage arising from a not insignificant breach of a material contractual obligation (obligation the fulfilment of which is required to allow for the proper performance of the contract in the first place and compliance with which the contract party may regularly trust); in this case our liability is limited, however, to compensation for foreseeable and typical damage.

8.3 The limits of liability resulting from item 8.2 also apply in the event of breaches of duty by or to the benefit of persons whose fault we are responsible for under statutory regulations. They do not apply if we have maliciously concealed a defect or have given a guarantee of the composition of a product and to claims under the Product Liability Act.

8.4 With respect to a breach of duty that does not consist of a defect, the buyer may only withdraw or terminate if we are responsible for the breach of duty. The buyer's right to freely terminate the contract (in particular pursuant to Sections 651, 649 BGB) is excluded. The statutory preconditions and legal consequences shall also apply.

9. Return of Goods

Returns of defective goods may be undertaken only after prior agreement and with our written consent. Freight collect returns of goods will not be accepted. Special fabrications, partial pack-aging and goods that are no longer saleable are excluded from returns. Goods returns for credit will be given credit after a deduction is made for processing in the amount of 20% of the net purchase price of the returned goods.

10. Export Restriction

Forwarding our goods, including the product descriptions to the USA or Canada is expressly prohibited and shall require our prior written approval.

11. Legal Venue, Place of Performance and Applicable Law

11.1 Exclusive legal venue for disputes arising between the contract parties is Eisenberg if the buyer is a merchant, a legal entity under public law or a public law special fund or if the buyer has no general legal venue in Germany. We are also entitled, however, to bring action at the buyer's headquarters or at another legal venue.

11.2 If no other arrangement is reached in the order confirmation, our registered office is the place of performance.

11.3 The law of the Federal Republic of Germany shall apply exclusively to the legal relationship and as a supplement to these provisions. Application of the UN Convention on Contracts for the International Sale of Goods (CISG) is excluded.

Sanitärtechnik Eisenberg GmbH

Applicable as of: 01.10.2018

Pipes and connectors

SANIT pipes and connectors meet the requirements of DIN EN 12056 in association with DIN 1986-100 and DIN EN 752.

This has resulted in changes to the designations of the products concerned. Up to now, the nominal diameter DN referred to the internal diameter of the pipe.

From 2006, SANIT amended its designations to be in line with EN standards. Now, the nominal diameter DN refers approximately to the external diameter of the pipes and connectors.

Please note the changes in particular in relation to the WC connectors, pre-wall installations and drainage systems.

SANIT designation OLD DN	Nominal diameter according to DIN EN 12056 NEW DN	Corresponding external diameter in mm
25	30	32
32	40	40
40	50	50
50	56	56
70	70	75
80	90	90
100	100	110
125	125	125
150	150	160
200	200	200

Thread designations

M – ISO metric thread according to DIN 13

G – thread in inches according to DIN EN ISO 228

R – male pipe thread (conical) according to DIN EN 10226

Declaration of Conformity with the European Chemicals Directive (REACH)

We hereby declare that our products comply with the European Chemicals Directive No. 1907/2006/EC (REACH).

Re: Information obligations in accordance with Art. 33

As a manufacturer of products as defined in the aforementioned Directive, we are a downstream user. These products are not subject to mandatory registration.

We do not produce any chemicals (substances) or preparations, nor do we import such products into the EU. Information regarding substances contained in primary and auxiliary products is based on information provided by our suppliers.

We place great value on the cultivation of trusting relationships with our suppliers, which form an important basis for ensuring compliance with the European Chemicals Directive throughout the supply chain. As such, and to the best of our current knowledge, our products, including their packaging, do not contain any substances of very high concern (SVHC), as specified in the Candidate List (Art. 59[1], in its latest version) of the European Chemicals Agency ECHA, to an extent of more than 0.1 mass % per product.

REACH: Information on structural elements containing leaded brass components

The Regulation (EU) No. 1907/2006 of the European Parliament and Council adopted on 18 December 2006 for the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH¹) provides that the „identification of Substances of Very High Concern (SVHC²) and the inclusion of these substances in the candidate list imposes a formal obligation to inform on importers, manufacturers and suppliers of a product containing such substances at a mass percentage of >0.1%“. On 27 June 2018 lead, EC No. 231-100-4, was included in the SVHC candidate list with the number CAS 7439-92-1. The lead content of brass and red brass usually is above 0.1%. This is why we inform industrial or professional users and dealers on this fact.

Brass is used in connectors of installation sets for urinal control systems and concealed cisterns, connecting nipples for filling valves and drain valves as well as small parts in drain sets for sinks, wash basins and tubs.

Responsible behavior in the sense of our environmental awareness has led in the last few years to a marked reduction of the non-ferrous metal content in our products. Wherever the use of lead is unavoidable, the lead content of the components was significantly reduced. The use of the so-called lead-free brass types, Pb³, makes it possible to do without lead almost completely.

The use of brass components for piping employed in the gas and potable water distribution systems remains unchanged. A list of permitted brass alloys for fittings and metal components in potable water distribution systems can be gathered from the UBA website: www.umweltbundesamt.de/sites/degault/files/medien/374/dokumente/10t_revision_4ms_scheme_for_metallic_materials_part_b.pdf

For more information on the REACH regulation we recommend the website of the European Chemicals Agency (ECHA): https://echa.europa.eu/documents/10162/23036412/nutshell_guidance_articles2_en.pdf/1e13dcce-b46b-43cb-904e-6c4675613e9d

¹ REACH: Registration, Evaluation, Authorisation and Restriction of Chemicals

² SVHC: Substance of Very High Concern

³ Pb³: Plumbum free, marking dedicated to brass materials with a lead content of < 0.1%

SANIT has successfully achieved certification to DIN EN ISO 9001, DIN EN ISO 14001 and DIN EN ISO 50001 – Introduction of a modern quality management system, environmental management system and energy management system. The certificate is available to download from www.sanit.com.

SANIT has product liability insurance coverage with Allianz.

SANIT products are subject to extensive testing in accordance with national and international standards and have test marks, such as DIN, KIWA, NF, TÜVRheinland etc.

of thermoplastic WC seats, shower
seats, folding seats and sinks

Sanit concealed elements and the rail system 996 are tested to the French standard NF017 and follow the DIN EN 997 “WC pans and objects with integral siphon” from May 2014.

The following testing loads were tested on a sufficiently stable construction:

- WC and bidet elements with 4 kN / 400 kg
- wash basin and urinal elements with 1.5 kN / 150 kg
- elements for fixing handles and supports with 1 kN / 100 kg

Special regulations have to be observed in case of free standing WC installations and installation walls.
