

HAGOlifter PRO

The lifting device for professionals

Application: The HAGOlifter PRO is the lifting device for professionals, suitable for HAGO access covers without hinges. Even heavy and high covers can be lifted and moved effortlessly without exertion.

In addition, we have two special types in our program. The HAGOlifter-WALL for low wall clearance and the HAGOlifter-XH for extra high covers.

Scope of delivery:

The HAGOlifter is delivered as a complete set consisting of:

- 2 pcs. Lifting unit (painted red) with aluminium wheels
- 2 pcs. Fixing screws M10 (for HAGO access covers made of aluminium)
- 2 pcs. Fixing screws M12 (for HAGO access covers made of galvanized and stainless steel)
- 2 pcs. Rubber protection plates (to place on sensitive floors)

| Type | Lifting height | Weight per lifting unit |
|-----------------|----------------|-------------------------|
| HAGOlifter PRO | 26 cm | 12 kg |
| HAGOlifter WALL | 26 cm | 12 kg |
| HAGOlifter XH | 31 cm | 12 kg |
