# HYDROTEC

DRAINAGE CHANNELS

#### **Product benefits**

#### Barrier-free and powder coated

The 3-metre-long HYDRO*line* PRO is designed for terraces, garages and car parks. The system is barrier-free (slot width 12 mm) and ideally suited for pedestrians.

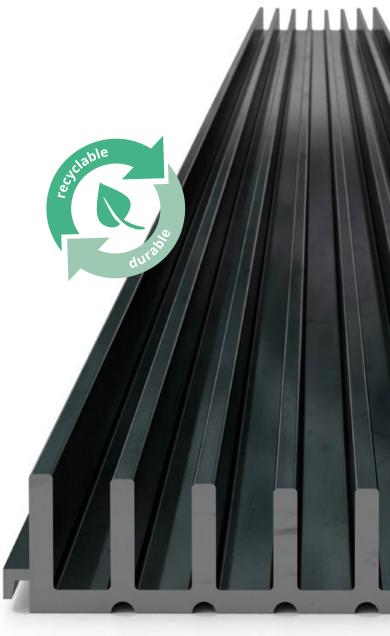

#### Ultra-flat and easy installation

The low installation height of 30 mm allows easy installation without a large foundation.

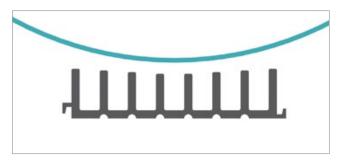

#### Nominal width expandable

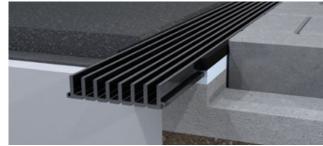

The channel can be fitted at the sides, allowing the nominal width to be extended as required.

#### **Product benefits**

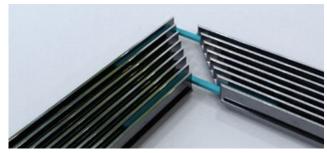

#### Concave arrangement

The concave arrangement of the slots serves to enhance the transport energy so that the water is well drained even on slight slopes.

#### TYPE I

The channel does not require a concrete encasement and can be asphalted or paved directly up against. This offers architectural freedom.

#### Vertical outlet

Vertical outlet with an easily removable grating and integrated connection für a outlet pipe (Ø100).

#### Special elements

HYDRO*line* PRO provides special elements with installation aid for special areas, which simplified the installation.

- L element
- T element
- Intersection element

#### Available in different colours

The drainage channel is made of aluminium and powder-coated by default (RAL 9005 deep black). Uncoated or alternative colors are available on request- see - second last page.

#### Installation instruction

#### **MASTIC ASPHALT**

The drainage channel must be permanently seated approx. 5 mm lower than the adjoining surface.

Concrete according to calculation of the respective load class.

#### **General notes**

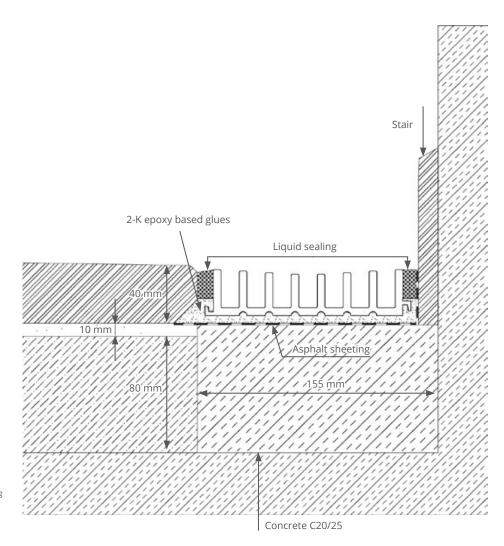

The installation instructions are only provided as a recommendation. The construction companies charged with installation can naturally incorporate any of their own improvements. The construction company is responsible for the correct installation of the drainage channels.

All installed parts must be examined before installation to ensure that they are undamaged. For reasons of liability never install damaged parts and contact the supplier immediately to submit a claim.
